INTRODUCTORY SECTION

Town of Brunswick, Maine

INCORPORATED 1739

OFFICE OF THE FINANCE DIRECTOR

85 UNION STREET

BRUNSWICK, MAINE 04011-2418

TELEPHONE 207-725-6652

FAX 207-725-4107

November 28, 2014

To the Brunswick Town Council and Citizens of the Town of Brunswick, Maine:

The Town of Brunswick is required by its charter and the laws of Maine to prepare a set of audited financial statements. The audited basic financial statements, contained within this larger comprehensive annual financial report (CAFR), are intended to meet those requirements. The Town of Brunswick chooses to go beyond the minimum reporting requirements and prepare this CAFR in an effort to provide greater detail regarding the financial condition of the Town and its financial operations.

This CAFR consists of management's representations concerning the finances of the Town of Brunswick. The responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with management. The Town of Brunswick has established a comprehensive framework of internal controls in order to provide a reasonable basis for making these representations. The Town recognizes that the costs of a control should not exceed the benefits to be derived, and the objective of its internal controls is to provide reasonable, rather than absolute, assurance that its financial reporting is free of material misstatements.

Runyon Kersteen Ouellette, a licensed firm of certified public accountants, has audited the Town of Brunswick's basic financial statements for the year ended June 30, 2014. The goal of an independent audit is to provide reasonable assurance that the basic financial statements are free of material misstatement. Runyon Kersteen Ouelette has issued an unmodified opinion on the Town of Brunswick's basic financial statements indicating that, in its opinion, the basic financial statements are fairly presented in all material respects, in conformity with accounting principles generally accepted in the United States. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The Town of Brunswick, incorporated February 1739, is situated on the coast of Maine in Cumberland County, the state's most populous county. Brunswick is a state-designated service-center community, located between Maine's major population centers. The Town's geographic boundaries encompass approximately 49.73 square miles and the 2010 Census listed Brunswick's population at 20,278.

The Town of Brunswick operates under a charter that provides for a council-manager form of government with a nine-member town council elected on a non-partisan basis to three-year staggered terms. Seven council members are elected from districts and two are elected at-large. The charter grants to the town council all powers to enact, amend, or repeal ordinances, orders, resolutions, policies, and rules relating to the Town's property and affairs. The town council appoints the town manager who in turn appoints the municipal department heads, subject to confirmation by the town council.

A nine-member elected school board is responsible for the operation of all facets of a school department that provides K-12 education. Members are elected for three-year staggered terms with seven elected from districts and two elected at-large. The school board appoints the superintendent of schools, who administers the department and carries out the policies of the board. In consultation with the

superintendent, the school board also proposes an educational budget for consideration by the Town Council and inclusion in the Town's annual budget.

The town manager is required to propose an annual budget to the town council by May 1st. The budget includes the municipal departments and activities. It also includes an education budget approved by the school board. The town council must adopt an annual budget by June 15th. State law also requires that voters, in a budget validation referendum, approve the school budget adopted by the town council. Once the budget is adopted, the charter allows for the transfer of resources within departments. However, transfers between departments require town council approval. State law also has special requirements for changes to the education budget.

The Town of Brunswick provides a full range of services including public safety, public works, education, human services, and recreation. The Brunswick Sewer District, a separate legal entity, provides sanitary sewer services. The Brunswick-Topsham Water District, also a separate legal entity, provides water services. These districts are not part of the Town of Brunswick so their financial statements are not included in this report. The financial statements for these districts can be obtained directly from the districts.

The Brunswick Development Corporation (BDC) is a separate legal entity established to foster economic development within Brunswick. In previous years, BDC was reported as a component unit of the Town of Brunswick because the Town appointed a majority of the directors and because BDC had the potential to provide specific financial benefits to, or impose specific financial burdens on the Town. Effective July 1, 2013, with a change in the formation and composition of BDC's board of directors, management has determined that BDC should no longer be considered a component unit of the Town. The financial statements for BDC can be obtained directly from BDC at 85 Union Street, Brunswick, ME 04011.

Local economy

Brunswick is a commercial, industrial, educational, health care, and cultural center for the southern section of mid-coast Maine. Mid-Coast Health Services, along with Bath Iron Works (BIW) and Bowdoin College are the area's largest employers.

Mid Coast Health Services. Mid Coast Health Services (MCHS) is a community, non-profit, health care organization providing a continuum of care through its affiliated organizations. With more than 1,600 employees, MCHS is the largest employer in Brunswick and the third largest employer in the labor market area. Situated in Brunswick for many years, Mid Coast Hospital moved into a new facility in 2001, and in 2009, completed a major expansion that added approximately 50,000 square feet to the hospital. In 2011, MCHS opened a primary care and walk-in clinic facility in leased space at Brunswick Station in downtown Brunswick.

Bath Iron Works. Bath Iron Works (BIW) is a shipbuilder headquartered in Bath, Maine, which is heavily dependent on contracts to build surface combatants for the US Navy. As a consequence, the Navy's procurement plans are always a concern for BIW and its employees. Since 1985, BIW has been the lead contractor and has delivered ships of the Arleigh Burke (DDG-51) class. As BIW was nearing the completion of the ships it had contracted to deliver, the Navy decided to restart procurement of the DDG-51s. BIW and a competitor are each building ships in the restarted program. Further, as the lead designer of the DDG-51, BIW is considered the "planning yard" as ships already delivered to the Navy are upgraded and modernized. BIW expects to compete for the modernization contracts.

The Zumwalt (DDG-1000) class had been planned as the US Navy's next generation surface combatant. Originally, a competitor was designated as the lead designer and builder of the DDG-1000, with that competitor and BIW each building one of the first two ships in this class. Cost concerns for this class caused the Navy to limit production to three ships. Currently, all three ships of the DDG-1000 class are under construction at BIW.

Given the restart of the DDG-51 program and changes related to the DDG-1000 program, BIW says it expects to hire up to 400 new employees in 2015, mainly in trades including electrical, machinist, shipfitters, tinsmiths, welders, pipefitters and more, as well as supervisory positions. However, the US Navy's procurement plans are always subject to change and those changes could adversely impact BIW and its employees. BIW continues to look for opportunities to diversify its work beyond Navy contracts and is currently one of three shipyards designing the next offshore patrol cutter for the U.S. Coast Guard. If BIW wins the competition, the cutter would be built by BIW.

Bowdoin College. Bowdoin College (Bowdoin or College) is an undergraduate liberal arts college located in Brunswick. Bowdoin employs approximately 921 full-time equivalent (FTE) employees, including 204 FTE faculty members. For the most recent tax year, Bowdoin was the Town of Brunswick's 10th largest property taxpayer. The College is also a major tenant at Brunswick Station, leasing space for classrooms and offices. Over the past few years, Bowdoin has completed a number of building and facilities improvements.

Brunswick Landing, Maine's Center for Innovation. Brunswick Landing is the name given to the former Naval Air Station Brunswick (NASB or BNAS) property. NASB, closed in May 2011, was once one of the state's largest employers. The operation of the base was turned over to the Midcoast Regional Redevelopment Authority (MRRA). MRRA is a state-appointed agency responsible for the management and disposition of NASB property and the implementation of the "Master Reuse Plan for BNAS" (Master Plan).

The Master Plan recommended that portions of the base continue operating aviation facilities and Brunswick Executive Airport is the name given to the airport portion of the property. Other components of the plan envisioned educational uses by the University of Maine system and Southern Maine Community College. The Navy has conveyed parcels to the Maine Community College System (MCCS), facilities have been renovated or constructed and many programs and classes are now being offered by the community college and university system. Other properties were identified for manufacturing and commercial uses and have been conveyed to MRRA for development. Several facilities have been renovated and others have been constructed, attracting a variety of businesses. The Master Plan along with information regarding the impact of NASB's closure, and MRRA's redevelopment efforts can be found on MRRA's website at www.mrra.us.

Long-term financial planning

The charter of the Town of Brunswick requires the annual preparation of a five-year capital improvement program (CIP). The CIP identifies capital improvements and addresses financing those improvements, and the annual cost of supporting them. The CIP is a plan; it does not fund any projects. Project funding can be authorized in a variety of formats.

In February, 2013, the Council adopted a new CIP policy, new procedures, and a revised document format. The policy requires that items included in the CIP have a value greater than \$100,000. Those recommended to be funded with debt are required to have a value greater than \$325,000. All items require a minimum life of five years. Further, the policy established a mechanism for the annual funding of reserves for the replacement of vehicles and equipment. Finally, the policy requires that the CIP be developed and completed ahead of the development of the annual municipal budget.

The CIP for fiscal years ending 2015-19 recommended funding projects totaling \$13,975,925, with \$2,698,500 to be financed with debt. Projects in development (those that may eventually be considered for funding) totaled \$70,125,000. The Town continues to recognize that the health and diversity of Brunswick's property tax base, the continued pressure on annual operating budgets, and the continued desire to minimize property tax increases, will impact the Town's capacity to finance capital projects and the related operating costs outlined in the CIP. Further, the CIP policy articulates the Town's goals for financing capital items. In adopting the policy, the Town understood that many of its goals will need to be accomplished over a period of time in a phased approach.

Relevant financial policies

The Town of Brunswick has an established fund balance policy that targets its unassigned general fund balance at 16.67% of its general fund revenues. The policy, adopted in 2010, is based on the Government Finance Officer Association's (GFOA's) recommended best practice regarding appropriate levels of fund balance. In developing the target, the Town considered a number of factors, including the diversity of its property tax base, the reliability and volatility of its non-property tax revenues, and the potential of incurring significant one-time expenditures. The policy requires that funds in excess of the target to be used for capital or other one-time expenditures.

For the year ended June 30, 2014, the amount of unassigned fund balance was \$8,488,177 or 15.34% of general fund revenues. This reduced balance was anticipated, as during the year the Town Council approved the use of fund balance to fund the renovation of the new Town Hall. In accordance with the fund balance policy, the Town intends to develop a plan, to be implemented through the annual budgetary process, to bring the balance to the target level over a period of no more than three years.

During the development of the 2014-15 budget, the Town Council expressed its intention to promote longer-range budgeting and financial planning. In August, 2014 the Town Council adopted a policy establishing a Town Finance Committee, composed of three members of the Town Council, to assume responsibility for reviewing and participating in the financial affairs of the Town.

Major initiatives

Police Station. The Town Council, on July 9, 2012, adopted a bond ordinance authorizing the issuance of up to \$5.5 million in bonds, and other funding, to finance the construction of a new police station. On October 15, 2012, the Town Council, in order to acquire property for the new police station, authorized a non-monetary exchange with Brunswick Development Corporation (BDC). Under the terms of the agreement with BDC, the Town exchanged the municipal building and site at 28 Federal Street for property owned by the BDC located at the corner of Pleasant and Stanwood streets. Construction of the new police station began in December 2012 and the building was substantially completed and occupied in September 2013.

Municipal Facilities. At the end of 2011, the Town and Bowdoin College completed a real estate exchange in which the Town acquired Bowdoin's McLellan Building at 85 Union Street and the College acquired the former Longfellow School. In accordance with the exchange agreement, Bowdoin may occupy the third floor of the McLellan Building until 2024. Beginning in December, 2013 The Town undertook renovations to the first two floors of the McLellan Building so that it could become the new Town Hall. In addition to providing additional space for the administrative functions formerly housed at 28 Federal Street, the new Town Hall allows the Town to bring other functions that were located in leased spaces, (i.e. meeting facilities, television studio, and general assistance offices) to a central facility. Renovations were complete, and the Town Hall at 85 Union Street was opened in April, 2014.

Recreation Facilities. With the closure of Brunswick Naval Air Station (BNAS), the Town asked that the Navy fitness center (a.k.a. Building 211) be given to the Town. The Town's request was approved and in July 2013, the property was conveyed to the Town. With the acquisition of the fitness center, the Town Council voted to abandon the downtown recreation center at 30 Federal Street. The recreation department moved its offices and operations into the new recreation center during the fall and winter 2013-14, and in June 2014, the Town sold the land and building at 30 Federal Street to Brunswick Development Corporation (BDC). BDC immediately sold the property, along with the property at 28 Federal Street, to Coastal Enterprises, Inc. (CEI). CEI has razed both buildings and intends to construct new office space.

In addition to the Navy fitness center, the Town has received several other parcels, including a large parcel of approximately 591 acres of open space. The Town will use these parcels in accordance with the conditions of the conveyances, primarily for conservation and recreation purposes.

School Construction and Facilities Projects. With the opening of the new Harriet Beecher Stowe School in 2011, the school department turned its attention to examining its other facilities and program needs. Although the department had at one time anticipated that it would meet its needs through renovations of and additions to the Coffin and Jordan Acres elementary schools, as well as the Junior High School, the department decided it needed to take a fresh look at those and other options. As a result, the school board embarked on the development of a comprehensive facilities master plan, with the goal of identifying the facilities required to support the department's programs as well as the costs associated with constructing and operating the required facilities. Phases I and II of the plan's development have been completed, and although no final decisions have been reached, the department has identified a number of options, including renovation and new construction. The school department believes that projects to expand, renovate or construct school facilities would require the issuance of debt and that those projects are not likely to qualify for State participation. The results of the planning will be addressed through the Capital Improvement Program (CIP).

Brunswick Station and Amtrak Downeaster Service. With work completed on a \$38 million project to upgrade 28 miles of rail track between Brunswick and Portland and other rail-related improvements, the Downeaster's inaugural run rolled into Brunswick Station on November 1, 2012. According to the Northern New England Passenger Rail Authority (NNEPRA), additional scheduled service could be provided to and from Brunswick if the proposed Downeaster layover facility is eventually constructed in Brunswick. NNEPRA's preferred location for the layover facility, known as Brunswick West, has been opposed by abutters and others who are worried about the facility's impact on their neighborhood. NNEPRA is moving forward with plans to construct the facility at Brunswick West, and is currently pursuing the necessary permitting from the Maine Department of Environmental Protection.

Brunswick Landing, Maine's Center for Innovation. During the year, the Town and the Midcoast Regional Redevelopment Authority (MRRRA) continued discussing collaborative approaches regarding the redevelopment of Naval Air Station Brunswick (NASB). The parties also resumed discussions about establishing tax increment financing (TIF) districts to assist MRRRA's redevelopment efforts and businesses wishing to locate at Brunswick Landing. With a TIF, a portion of the property taxes paid could be used for infrastructure development or rebated directly to MRRRA or others to assist in the funding of its projects.

In March 2013, the Town Council approved two TIF districts on the former NASB. The Town and MRRRA then engaged in discussions regarding the details of the development programs, including the most critical component of the programs - the amount of tax revenue that would be provided to MRRRA to assist its redevelopment activities. The Town approved the two TIF development programs in July 2013, allocating up to 50% of captured TIF revenues to be made available to MRRRA and future developers. In October, 2013, the Maine Department of Economic and Community Development (DECD) gave final approval to the TIF development programs.

Graham Road Landfill. As described in the notes to the financial statements, the Graham Road Landfill operates under strict environmental regulations and continued operation is dependent on continued compliance with existing and future regulations. For several years, the Town has worked with the Maine Department of Environmental Protection (DEP) to comply with, or seek waivers from, certain discharge parameters set by the United States Environmental Protection Agency (EPA). For the most part, the parties agree the Town has had technical violations, with little to no impact on water quality. Late in 2010, the Town learned that the waivers it sought, as specifically identified in its 2004 license, were not available.

After learning that the waivers it sought were not available, the Town and the DEP engaged in negotiating an Administrative Consent Agreement (ACA) to resolve the wastewater discharge and operational violations. In January 2012, the Town and DEP discontinued the ACA discussions and instead agreed to pursue a cooperative approach by constructing an experimental treatment facility. This was completed in the late fall of 2012, and in order to allow sufficient time to assess the facility's effectiveness in cold weather, the Town monitored treatment through the winter of 2013-14. The test data has been collected

and submitted to DEP for analysis. In April 2014, the Town learned that DEP's Remediation and Waste Bureau had concerns about groundwater trends at the landfill. While not a situation requiring immediate remediation, the groundwater questions may present an opportunity for the Town to be eligible for closure funding from the State. Depending on its collaboration with DEP, the cost of wastewater treatment options, and other factors, the Town may ultimately consider closing the landfill. Though the Town faces potential fines for its failure to comply with wastewater discharge limits and other violations, DEP has indicated that it would not pursue enforcement action so long as the Town and DEP were pursuing a collaborative solution. The Town cannot reasonably estimate the amount of any potential fines, should it once again be faced with enforcement action.

Zoning Ordinance Rewrite. In 2008, the Town Council adopted an update to the Town's Comprehensive Plan, culminating a 5-year planning process. The updated Comprehensive Plan provided guidance for Town's general pattern of development and anticipated updating the 1997 Zoning Ordinance. In October, 2013 the Zoning Ordinance Rewrite Committee (ZORC) was formed, and a consultant was selected, to facilitate an update to the Zoning Ordinance. Through the year, the ZORC worked to implement the 2008 Comprehensive Plan, simplify the zone district structure, integrate Brunswick Landing regulations, improve user-friendliness of the document and revise the zoning map. The committee presented a draft ordinance and held numerous public sessions seeking reaction and input. Based on the comments received to date, the ZORC will continue work on the draft ordinance and will conduct another series of public input sessions.

Bond Issues and Debt Authorization. Subsequent to June 30, 2014, the Town authorized the issuance of bonds for three projects, totaling \$1,180,080, as recommended in the 2015-19 CIP. The Town continues to enjoy an Aa2 rating with Moody's Investors Service. In January, 2014, Standard & Poor's completed a review of the Town and updated its rating of the Town from AA to AA+.

Awards and acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Brunswick for its comprehensive annual financial report for the year ended June 30, 2013. The certificate recognizes that Brunswick published an easily readable and efficiently organized comprehensive annual financial report that satisfied both generally accepted accounting principles and applicable legal requirements. The Town of Brunswick has received this prestigious award every year since 1999. A Certificate of Achievement is valid for a period of one year. We believe this year's comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the Government Finance Officers Association to determine its eligibility for a certificate.

Finally, this report could not have been completed without the cooperation and assistance of all the Town departments. Especially appreciated are the efficient and dedicated services of the entire Finance Department, as well as the efforts of Runyon Kersteen Ouellette for its assistance in the review of this report.

Respectfully submitted,

FINANCIAL SECTION

Independent Auditor's Report

Finance Committee
Town of Brunswick, Maine

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Brunswick, Maine, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Brunswick, Maine as of June 30, 2014, and respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the Postemployment Healthcare Benefit – Schedule of Funding Progress, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Finance Committee
Town of Brunswick, Maine

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2014 on our consideration of the Town of Brunswick, Maine's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Brunswick, Maine's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As the Town of Brunswick's management, we offer readers of the Town of Brunswick's financial statements this narrative overview and analysis of the financial activities of the Town of Brunswick for the fiscal year ended June 30, 2014. This overview and analysis is referred to as Management's Discussion and Analysis (MD&A). We encourage readers to consider the information presented here in conjunction with additional information furnished in the letter of transmittal, which can be found in the introductory section of this comprehensive annual financial report (CAFR).

Financial Highlights

- For the fiscal year ended June 30, 2014, the Town of Brunswick's total net position increased by \$5,575,972, to total \$71,227,865. Of this amount, \$5,537,578 is classified as *unrestricted net position* that may be used to meet the Town's on-going obligations.
- Net investment in capital assets increased by \$7,958,357, while in total the other categories of net position decreased by \$2,382,385.
- Outstanding long-term principal debt decreased by \$2,888,113, all attributable to debt retirement.
- Governmental funds reported combined ending fund balances of \$19,182,281, a decrease of \$4,377,452 from the previous fiscal year. The decrease is largely the result of using bond proceeds for the construction of a police station, and the use of fund balance for renovation of the new Town Hall during the fiscal year.
- The unassigned fund balance for the General Fund at June 30, 2014 was \$8,488,177. The Town's policy is to maintain the unassigned fund balance at 16.67% of revenues. At June 30, 2014, this portion of the fund balance is approximately 15.35% and 15.34% of the total General Fund expenditures and revenues, respectively.

Overview of the Financial Statements

This MD&A is intended to serve as an introduction to the Town of Brunswick's basic financial statements which consist of the: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition to the basic financial statements, the CAFR also contains other supplementary information.

Government-wide financial statements. The *government-wide financial statements* are designed to provide a broad overview of the Town of Brunswick's finances, in a manner similar to a private-sector business. There are two government-wide statements: the statement of net position and the statement of activities.

The *statement of net position* presents information on all of the Town's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information on how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*), from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety, public works, human services, education, recreation/culture, and county tax. The business-type activities of the Town include the Town's solid waste facilities, the pay-per-bag program, the Mere Point Wastewater District and the train station/visitors center.

In previous years, the government-wide financial statements included not only the Town of Brunswick but also the legally separate Brunswick Development Corporation (BDC) as a discretely presented component unit. During the fiscal year ended June 30, 2014, BDC made changes to its by-laws which, among other things, established that the Town no longer appoints a majority of BDC's board of directors. Accordingly, BDC is no longer a component unit of the Town of Brunswick and its financial statements have not been included in the Town's report. The government-wide financial statements can be found on pages 32 and 33 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Brunswick, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of *governmental funds* is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Brunswick maintains eighteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Downtown Development TIF District Fund and the Police Station Building Fund, all of which are considered major funds. Data from the other governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages 34-41 of this report. Individual fund data for each of the non-major governmental funds is provided in *combining statements* found on pages 78-87 of this CAFR.

In accordance with the Charter of the Town of Brunswick, an annual appropriated budget is adopted for the Town's General Fund. It is the only fund with an annual appropriated budget. A statement, comparing the budget with actual results, has been provided to demonstrate compliance with the General Fund budget. A full discussion of the General Fund budget and highlights for the year is contained later in this MD&A.

Proprietary funds. The Town reports two types of proprietary funds, enterprise funds and internal service funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town of Brunswick uses enterprise funds to account for its solid waste facilities, the pay-per-bag program, the Mere Point Wastewater District and the train station/visitors center. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the Town's functions. The Town utilizes an internal service fund to account for printing services provided to departments on a cost reimbursement basis. The proprietary fund statements provide the same type of information as the government-wide financial statements, only in greater detail. The basic proprietary fund financial statements can be found on pages 42-44. The combining statements can be found on pages 90-92.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town of Brunswick's own programs. The Town's fiduciary funds include its private-purpose trust funds and an agency fund. The private purpose trust funds report on scholarships, gifts to the library, resources available to the Village Improvement Association, and awards for participation in recreation programs. The agency fund reports on money held for the benefit of Brunswick student activities. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 45 and 46 of this report. The combining statements can be found on pages 94-100.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 47-74 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Town's progress in funding its other than pension postemployment benefits (OPEB) obligations. Required supplementary information can be found on page 75 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and proprietary funds are presented immediately following the notes to the financial statements. Combining and individual fund statements can be found on pages 78-100 of this report.

Government-wide Financial Analysis

As noted earlier, over time, net position may serve as a useful indicator of a government's financial position. For the Town of Brunswick, assets exceeded liabilities by \$71,227,865 at the close of the most recent fiscal year which is an increase of \$5,575,972 during the fiscal year. The Town is able to report positive balances in all three categories of net position, (net investment in capital assets, restricted and unrestricted) for the government as a whole.

Town of Brunswick's Net Position

	Governmental activities		Business-type activities		Total	
	2014	2013	2014	2013	2014	2013
Current and other assets	\$24,527,329	\$29,090,362	\$ 2,574,373	\$ 2,189,221	\$27,101,702	\$ 31,279,583
Capital assets	82,955,758	76,183,251	2,269,672	2,432,176	85,225,430	78,615,427
Total assets	<u>107,483,087</u>	<u>105,273,613</u>	<u>4,844,045</u>	<u>4,621,397</u>	<u>112,327,132</u>	<u>109,895,010</u>
Deferred outflows of resources	-	8,594	-	-	-	8,594
Long-term liabilities outstanding	29,782,134	32,594,652	6,829,772	6,632,862	36,611,906	39,227,514
Other liabilities	4,451,004	4,945,453	36,357	78,744	4,487,361	5,024,197
Total liabilities	<u>34,233,138</u>	<u>37,540,105</u>	<u>6,866,129</u>	<u>6,711,606</u>	<u>41,099,267</u>	<u>44,251,711</u>
Net position						
Net investment						
in capital assets	55,925,927	47,805,066	2,269,672	2,432,176	58,195,599	50,237,242
Restricted	7,494,688	9,100,700	-	-	7,494,688	9,100,700
Unrestricted	9,829,334	10,836,336	(4,291,756)	(4,522,385)	5,537,578	6,313,951
Total net position	<u>\$73,249,949</u>	<u>\$67,742,102</u>	<u>\$ (2,022,084)</u>	<u>\$ (2,090,209)</u>	<u>\$ 71,227,865</u>	<u>\$ 65,651,893</u>

By far, the largest portion of the Town's net position, \$58,195,599 or 81.70%, reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less any related outstanding debt used to acquire those assets (i.e., net investment in capital assets). As the Town uses capital assets to provide services to citizens, these assets are generally not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, resources needed to repay this debt must be provided from other sources. An additional portion, \$7,494,688 or 10.52% of the Town of Brunswick's net position represents resources that are restricted, meaning they are subject to external restrictions on how they may be used. The remaining balance, unrestricted net position, \$5,537,578 or 7.78%, may be used to meet the Town's obligations.

While in total the Town's net position is positive, results are very different for the governmental activities and the business-type activities. Readers should review the following analysis pertaining to those portions to fully understand the Town's financial reports.

Governmental activities. Governmental activities including transfers and special items increased the Town of Brunswick's total net position by \$5,507,847. This increase was \$3,667,276 higher than the increase reported at the end of the previous fiscal year. The following points highlight the significant changes compared with changes that occurred in the previous year:

- Property tax revenue, the Town's largest revenue, increased by \$2,729,676 or approximately 8%. This increase was anticipated as the tax rate increased in fiscal year 2013-14 by 6.59%. Property taxes made up 56.41% of the total revenue, down from 57.44% of the total in the previous year. The percentage decrease was the result of the increase in the total revenues, primarily influenced by substantial capital contributions.
- Charges for services revenue decreased by \$150,760. School department tuition revenue continues to decrease. Prior to a state law that required school districts to consolidate, the vast majority of students residing in the town of Durham attended Brunswick High School as tuition students. Most Durham students now attend Freeport High School. Ambulance service fees also decreased from the previous year, largely due to the sequestration order reducing Medicare reimbursements effective June, 2013. Offsetting these increases was an increase in building permits revenue, with building activity primarily at Brunswick Landing and Bowdoin College.
- Operating grants and contributions increased by \$283,716. The largest contributor to this increase was in state aid to education, representing increased funding to offset the state requirement that the school department pay an additional share of teacher retirement costs. Decreases in grants to the economic development and recreation departments offset this increase.
- Capital grants and contributions increased by \$3,473,941. This increase is primarily due to the Town's acceptance of several parcels of recreation land, and a building to be used as the new recreation center. These additions were all associated with the closure of the former Brunswick Naval Air Station. Infrastructure contributions, though substantial, were less than the previous year.
- Investment income revenues increased by \$27,787. The Town's cash and cash equivalents continued to be invested in conservative, low-yielding instruments, but yields were continuing to climb slightly from the lows of previous years.
- Special items were \$119,718 more than the prior year. The amount of \$225,000 was recognized in the sale of the former recreation building.
- Transfers out to business-type activities were \$10,000 less than the previous year. This reflects a reduction in the General Fund subsidy of the train station, after one year of experience with costs associated with the arrival of the Amtrak Downeaster service.

The following charts illustrate the total expenses by program, and revenues by source, for the Town's governmental activities.

**Expenses and Program Revenues - Governmental Activities
For the year ended June 30, 2014**

**Revenues by Source - Governmental Activities
For the year ended June 30, 2014**

Business-type activities. The Town's business-type activities consist of four enterprise funds, two major funds accounting for its solid waste facilities and its pay-per-bag program, and two non-major funds, including a small wastewater district and the train station/visitors center. The following charts illustrate the total expenses by program, and revenues by source, for the Town's business-type activities. The vast majority of the revenue is provided through charges for services.

**Expenses and Program Revenues - Business-type Activities
For the year ended June 30, 2014**

**Revenues by Source - Business-type Activities
For the year ended June 30, 2014**

The Town's business-type activities increased the Town's total net position by \$68,125. This was a result of decreases in the Solid Waste Facilities Fund and Mere Point Wastewater District of \$138,628 and \$35,787, respectively, offset by increases in the Pay-per-bag Program Fund and the Train Station/Visitors Center Fund of \$230,805 and \$11,735, respectively.

The major activity accounted for in the Solid Waste Facilities Fund is the operation of the Town's solid waste landfill located on Graham Road. For the year ended June 30, 2014, the landfill experienced a \$342,012 operating loss. This was largely due to costs associated with sampling and testing, as well as continued negotiations with the Maine Department of Environmental Protection (DEP) to resolve wastewater discharge and other violations. In addition, the Town recognized expenses in anticipation of an increased estimate of closure and post closure costs. For the year ended June 30, 2014, the Town had estimated eventual landfill closure costs of \$6,460,000 and post closure costs of \$2,135,000. For the fiscal year, the amount of expense related to closure and post closure was \$195,137.

The Town continues to operate pay-per-bag trash disposal and single-stream recycling programs. The pay-per-bag disposal program charges residents a fee for each bag of trash collected at curbside. The fee was implemented to encourage recycling. The single-stream recycling program makes it easier for residents to recycle. The two programs, instituted in 2007, are intended to extend the life of the landfill. While these programs have decreased the volume of solid waste delivered to the landfill, the Town has not been able to sufficiently reduce operating costs to meet the reduction in revenue. Recognizing the need to reduce the deficit in this fund, the Town's FY 2014 budget included a \$200,000 General Fund subsidy for the Solid Waste Facilities Fund. In a previous year, the Town Council voted its intent that the net funds generated by the pay-per-bag program be used toward future landfill closure costs. By June 30, 2014, the Pay-per-bag Program Fund had net position of \$1,841,593.

The Town's Mere Point Wastewater District also experienced an operating loss. Most of this loss was anticipated as the district user fees do not attempt to recover depreciation expenses. Even if depreciation was excluded, the fund would have experienced an operating loss as the remaining expenses were \$12,234 more than revenues. User fees for this fund have not changed since it was created in 1993. The rates are periodically reviewed as to both sufficiency and method of levy. The Town is also reviewing the estimated life of, and exploring potential upgrades to, these facilities.

The Train Station/Visitor's Center Fund was established in June 2009 when the Town executed a five-year agreement with JHR Development of Maine (JHR) to lease approximately 2,125 square feet of space at Brunswick Station. The Town uses the leased space for a train station and visitor's center. Under a property management agreement, the Brunswick Downtown Association (BDA) operates the train station and visitor's center. Brunswick Development Corporation (BDC) provided a \$220,000 grant to the Town for the prepayment of all five years of the lease rent. In the year ending June 30, 2014, the Town recognized revenues and rent expenditures of \$44,000, corresponding to twelve months of the lease. By June 30, 2014, the Train Station/Visitor's Center Fund had a net position totaling \$120,253, with \$36,994 of this recorded as investment in capital assets. The five-year lease term will conclude in November, 2014. In April, 2014, the Town and JHR signed a letter of intent to amend the lease, extending the term an additional five years at the same rental rate of \$44,000 per year. Also in April, BDC committed to grant the Town \$34,000 in FY 2015 to defray this cost. The Town does not anticipate future grants from BDC for this purpose.

Financial Analysis of the Government's Funds

As noted earlier, the Town of Brunswick uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town of Brunswick's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Fund balance is the measure of a governmental fund's spendable resources. Fund balance is presented in five possible categories:

- *Nonspendable* fund balance cannot be spent.
- *Restricted* fund balance reflects resources that are subject to externally enforceable legal restrictions, typically imposed by parties outside of the government.
- *Committed* fund balance represents resources whose use is constrained by limitations the government imposes on itself at its highest level of decision making (i.e., the Town Council), that remain binding unless removed in the same manner.
- *Assigned* fund balance reflects a government's intended use of resources.
- *Unassigned* fund balance represents the net resources in excess of what can be properly classified in one of the other four categories. Only the General Fund can report a positive amount of unassigned fund balance.

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$19,182,281. Of that amount, \$1,603,136 is classified as nonspendable. Another \$6,923,843 is restricted, \$1,505,327 is committed and \$1,619,378 is assigned.

The largest portion of the \$1,603,136 nonspendable fund balance consists of \$945,524 advances made by the Capital Improvements Fund to the Downtown TIF District Fund. Another \$557,770 is held in the permanent funds and \$99,842 is held in inventories and deposit items.

Of the \$6,923,843 in restricted fund balance, \$5,151,778, or approximately 74%, is restricted for education purposes. An additional \$1,168,276, or approximately 17%, is in bond proceeds and impact fees restricted for various capital projects.

The General Fund is the chief operating fund of the Town of Brunswick and, by definition, is the only fund that can have positive unassigned fund balance. Since unassigned fund balance represents resources not restricted, committed, or assigned to any particular use, this amount represents funds considered surplus. To provide for unforeseen circumstances and maintain liquidity, the Town's fund balance policy targets the unassigned General Fund balance at 16.67% of revenues. For the year ended June 30, 2014, the targeted unassigned fund balance for the General Fund was \$9,221,199. At \$8,488,177 the actual unassigned fund balance was 15.34% of revenues, and \$733,022 under the target. As a percentage of expenditures, the unassigned fund balance was 15.35%. In accordance with the fund balance policy, the Town will develop a plan, implemented through the annual budgetary process, to bring the balance to the target level over a period of no more than three years.

The net change in the Town of Brunswick's total General Fund balance was a decrease of \$2,387,383. Budget factors in this reduction include:

- A budgeted reduction of \$3,820,000 to balance the 2013-14 budget.
- Supplemental appropriations of \$1,751,580 for various purposes.
- Encumbrances of \$67,397 that were carried forward and re-appropriated for 2013-14.

Factors resulting from actual results include:

- Total actual revenues exceeded the budget by \$26,597. Most revenue categories exceeded the budget.
- Total actual expenditures were less than the budget by \$3,195,732. Most expenditure lines were less than the budget.
- Net transfers between the General Fund and other funds had a positive variance of \$29,265 when measured against the budget.

The General Fund changes highlighted above are more thoroughly discussed later in this MD&A in the section entitled "General Fund Budgetary Highlights."

The Downtown TIF District Fund accounts for activities related to the "DEVELOPMENT PROGRAM FOR THE BRUNSWICK DOWNTOWN MUNICIPAL DEVELOPMENT AND TAX INCREMENT FINANCING DISTRICT" adopted on March 1, 2010. As of June 30, 2014 the fund had a deficit balance of \$945,524, related to the cost of the Maine Street Station project (now Brunswick Station). Tax revenues generated

by the development within the District will be captured and used to fund the activities of the Downtown Development Program.

The Police Station Building Fund had a fund balance of \$11,097 as of June 30, 2014. To finance the building project, the Town issued bonds totaling \$5,500,000 on June 27, 2013. The Police Station was substantially completed and ready for occupancy by the end of September 2013 and the Town expects the project fund will be closed during the fiscal year ending June 30, 2015.

Proprietary funds. The Town of Brunswick's proprietary funds provide the same type of information found in the government-wide statements, but in greater detail. At year end, the Solid Waste Facilities Fund had a deficit in unrestricted net position of \$6,249,216. The Pay-per-bag Program Fund had unrestricted net position of \$1,841,593. The unrestricted net position of the Mere Point Wastewater District Fund amounted to \$32,608. The Train Station/Visitors Center Fund had unrestricted net position of \$83,259. The finances of these funds have been addressed previously in the discussion of the Town of Brunswick's business-type activities.

General Fund Budgetary Highlights

Original Budget vs. Final Budget

Differences between the original and final budgets result from budget adjustments and/or supplemental appropriations made during the year. Adjustments are generally the result of the Town's budget management process which constantly monitors department budgets and the budget in total. The Town Council, upon the request of the Town Manager, may move funds from departments with anticipated budget surpluses to those with anticipated budget shortfalls. Adjustments of this type have no impact on the budget in total.

During the year, adjustments totaling \$270,000 were made from accounts with projected balances to accounts where it appeared that the expenditures would have exceeded the appropriations. These adjustments were:

- \$100,000 for Administration. The largest portion of the amount transferred was for personnel costs and legal fees. Although the actual costs were higher than originally budgeted, the amount transferred could have been lower by approximately \$40,000.
- \$90,000 for the Town Hall at 85 Union Street. Due to the accelerated schedule of moving the Town offices, unanticipated operating costs were incurred in fiscal year 2013-14. No funds were originally budgeted for this building.
- \$40,000 for Risk Management. The largest portion of the amount transferred was for unanticipated costs in unemployment and workers compensation.
- \$40,000 for several smaller transfers for a variety of purposes.

The other difference between the original and final budgets results from supplemental appropriations made during the year. These differences total \$3,689,580. Of that amount, \$2,403,000 is the amount the State of Maine contributed to Maine Public Employees Retirement System (MainePERS) for retirement and other benefits on behalf of employees enrolled in the MainePERS Teacher Plan. This on-behalf-of amount increases both the revenue and expenditure budgets. The remaining \$1,286,580 represents supplemental appropriations from the unrestricted General Fund balance for a variety of purposes. Since they are made from fund balance, there is no increase in the revenue budget; only the expenditure budget is increased. The supplemental appropriations for the year are summarized as follows.

- \$950,000 to fund costs relating to the renovation of the McLellan Building (new Town Hall) at 85 Union Street.
- \$150,000 to fund unanticipated costs related to the occupation of the new Town Hall.
- \$186,580 to fund the full repayment of an advance to the School department. This was previously anticipated to be repaid through annual appropriations over several years.

The three supplemental appropriations funded unanticipated expenditures and were made from unassigned fund balance.

Capital Budget

The Town Council adopted a capital budget in conjunction with the operating budget for the fiscal year ended June 30, 2014. The capital budget authorized the use of unassigned General Fund balance totaling \$465,000 and is shown as an additional appropriation to distinguish it from the operating budget. The capital budget funded the following projects:

- \$50,000 to fund engineering and design costs in preparation for storm sewer upgrades and reconstruction of Union Street.
- \$50,000 to fund design costs in preparation for the renovation of the McLellan Building (new Town Hall) at 85 Union Street.
- \$50,000 to fund the first of three installments in the cost of a new telephone system to serve all Town departments.
- \$70,000 to fund the Town's share of the installation of a system of floats at the Water Street boat launch.
- \$100,000 to fund a variety of improvements to the Recreation Building at 220 Neptune Drive.
- \$145,000 to fund the purchase and installation of a new fire alarm system at Brunswick High School.

Revenues - actual vs. final budget

For the year, actual revenues exceeded budgeted revenues by \$26,597. The following paragraphs discuss the various categories of revenues and the variances within each category.

In total, actual tax revenues exceeded the budget by \$93,865. Of this amount, property tax revenue was less than budgeted by \$108,458. This is the result of several factors. The total actual taxable valuation of real and personal property tax was less than the estimate used in the development of the budget, resulting in \$181,106 less property tax revenue than projected. The actual amount of tax abatements granted was \$67,931 more than budgeted. Offsetting these, the actual amount of property tax deferred was less than budgeted by \$64,301. Additionally, supplemental tax assessments were \$76,278 more than budgeted. Interest on delinquent taxes and tax lien costs were \$3,027 and \$706 more than budgeted, respectively. Payments in lieu of taxes were approximately \$27,757 less than budgeted. Excise tax revenues were \$226,347 more than budgeted, because of better than expected collections on vehicles, watercraft and aircraft.

In total, actual license and permit revenues were \$96,847 more than the amount budgeted. The largest portion of this variance was in Codes Enforcement revenue where actual building permit revenue was \$94,021 more than budgeted due to more new construction than anticipated, largely at Brunswick Landing and Bowdoin College. The Town Clerk's revenue also exceeded projections by \$4,665 because of better than anticipated fee revenue from the issuance of vital record copies, marriage licenses and burial permits. The Planning Department's revenues were less than projected by \$6,617, reflecting development activity timed differently than anticipated. The remaining revenues of this category were a total of \$4,778 more than budgeted.

Actual intergovernmental revenues were less than the budget by \$361,802. State aid to education was \$393,891 lower than the amount budgeted. This was due primarily to the Maine Department of Education's (DOE) decision to apply \$204,967 in unused bond proceeds on the Harriet Beecher Stowe School to the state's subsidy of school debt service. Additionally, state aid was reduced to account for Medicaid revenue received by the school department. State revenue sharing exceeded estimates by \$10,677. Because this revenue is primarily dependent on state income and sales tax collections and because in recent years the State has re-directed funds that normally would have deposited to the revenue sharing pool, the Town is generally conservative when budgeting this source. State tax exemption reimbursement and highway grant funds also exceeded the budget by \$18,294 and \$6,392

respectively. Highway grant revenue is based on a municipality's qualifying mileage and a per mile reimbursement rate established by the State. The rate per mile was not known at the time the budget was prepared. The Town received approximately \$7,585 in unanticipated state emergency management disaster assistance for a severe winter storm and flooding in February 2013. State general assistance reimbursement was less than budgeted by \$24. The net of all other intergovernmental revenues was less than budgeted by \$10,835.

Actual charges for services exceeded the budget by \$27,850. The largest portion of this variance was \$65,956 in tuition and transportation revenues received by the school department. Most of that is attributable to tuition received for non-resident students attending Brunswick High School. As the result of school consolidation, the towns of Freeport, Durham and Pownal formed Regional School Unit 5 (RSU 5). Most of Brunswick's tuition students have come from Durham since it has no high school. Brunswick anticipates that the number of Durham students attending Brunswick High School will continue to decline as Durham students are expected to attend Freeport High School. As a consequence, Brunswick continues to conservatively estimate tuition revenues. Conversely, emergency medical service fees were less than anticipated by \$46,794, primarily as a result of ongoing changes in Medicare/Medicaid reimbursements related to sequestration. The remaining variances in this category result in a net positive variance of \$8,688.

Fines and penalties collected were more than budgeted by \$11,011. Parking tickets and other police department fines exceeded the budget by \$8,786. The increase was due largely to more aggressive enforcement of parking regulations in the downtown area. Fire department permits were \$750 more than anticipated, while unlicensed dog fines brought in \$1,475 more than budgeted.

Interest on investments fell short of the budget estimate by \$36,313. This was largely the result of interest rates that continued to remain low. The Town also continued to be invested in conservative instruments with low yields.

Finally, the other revenues category exceeded the budget by \$195,139. Of that variance, \$84,325, is attributable to miscellaneous municipal department revenue. The largest portion reflects unanticipated reimbursements in the police department for the training of officers who moved to other municipalities. School miscellaneous revenues were more than the budget by \$59,406. Cable TV franchise fees exceeded the budget by \$30,218. The net of the other revenues in this category was more than budgeted by \$21,190.

Expenditures - actual vs. final budget

The Charter of the Town of Brunswick requires that expenditures be within the various appropriations established in the budget unless the Town Council approves the excess expenditures. As previously mentioned in the discussion about the original and amended budgets, the Town regularly monitors its expenditure budget to ensure compliance with the Charter requirements. Again, compliance is ensured with budget transfers and supplemental appropriations. Readers are directed to the discussion regarding the original and final expenditure budgets for a thorough discussion of the transfers and supplemental appropriations.

The Town Council did authorize over-expenditures up to \$10,000 for a few budget items. These over-expenditures, in two departments, totaled \$14,573. Additionally, in the Technology department and in the Central Garage, the Town anticipated, and the Town Council approved, over-expenditures up to \$40,000 and \$90,000, respectively. These departments' expenditures ended the year over budget by \$31,266 and \$75,842 respectively. In one case, the Refuse Collection department which accounts for the cost of curbside trash collection, expenditures exceeded the \$10,000 limit by \$957.

Other financing sources/(uses) – actual vs. final budget

Unbudgeted transfers into the general fund totaled \$29,265. Included was \$42,271 from completed capital projects and \$212,144 from unused bond proceeds to pay debt service. Offsetting these was

\$225,150 budgeted as a reimbursement of the general fund for the advance to the Maine Street Station project. This advance was repaid, but it was not appropriate to account for it with a transfer into the general fund.

Capital Asset and Debt Administration

Capital assets. The Town of Brunswick's investment in capital assets for its governmental and business-type activities as of June 30, 2014 amounts to \$85,225,430, net of accumulated depreciation. This investment in capital assets includes land, construction in progress, improvements, buildings, machinery and equipment, vehicles, intangibles and infrastructure. The total increase in the Town's investment in capital assets for the current fiscal year was just over 8.4%. Increases were seen in governmental capital assets. Major capital asset events during the current fiscal year are listed below.

- Land additions totaled \$595,208 during the year. These consisted of six parcels of undeveloped land at the former Brunswick Naval Air Station (BNAS) which were transferred to the Town by the National Park Service for recreation purposes. The largest of these parcels is the 591 acre Kate Furbish Preserve, and will be utilized as a park.
- Construction projects in progress totaled \$99,848 at the conclusion of the year. This category of assets decreased significantly as several large projects were completed during the year. A number of road construction projects were in the planning phase as of June 30, 2014, at a cost of \$74,792. The Water Street float system project was in progress at a cost of \$25,056.
- Additions to building assets totaled \$11,042,901. The Town acquired and/or renovated three large buildings during the fiscal year ended June 30, 2014. The Police Station, valued at \$5,316,744, was completed and occupied in September 2013. The recreation department received a building valued at \$4,400,000 at Brunswick Landing (the former Brunswick Naval Air Station) and, in December 2013, moved its offices and operations from its downtown location at 30 Federal Street. The Town renovated the McLellan Building previously acquired in an exchange with Bowdoin College, adding \$1,079,284 to the asset value of the building. The Town offices were moved to the new Town Hall in April 2014. The school department added building improvements valued at \$246,873 which primarily consisted of fire alarm and security components at Brunswick High School.
- Machinery and equipment additions totaled \$949,504. Of this amount, \$442,129 was for six large pieces of construction and grounds maintenance equipment for the public works and recreation department. A new town-wide telephone system valued at \$164,701, and computer network equipment totaling \$33,887 were added in conjunction with the occupancy of the three new municipal buildings. Completion of the new police station required the addition of a generator, a photocopier, records storage equipment and upgrades to the dispatch microwave communications system totaling \$208,749. The recreation department added a scoreboard and bleachers at the new recreation building totaling \$34,897, and a chlorination pump at Coffin Pond for \$5,267. The fire department added emergency medical services equipment for a total of \$30,338. A shelving system for the town clerk's department was added at a value of \$14,485. The school department added a total of \$15,051, which included an audio system and grounds maintenance equipment.
- Vehicles were replaced in the planning, police, fire, public works, parks and recreation, and school departments during the year, with the cost of new vehicles totaling \$935,813. Additions were \$485,749 for three public works dump trucks, \$146,701 for two school buses, \$142,867 for the completion of the ambulance purchased the previous year, \$85,200 for three new police cruisers, \$40,572 for a parks and recreation pickup truck, \$29,224 for a fire department pickup truck and \$5,500 for a used passenger vehicle for the planning department.
- Governmental activities added infrastructure during the year totaling \$1,852,278. Much of this increase was due to the acceptance of three new streets in the housing development formerly

occupied by the US Navy. Shobe Avenue, with sidewalks and drainage, was valued at \$326,700. Windorf Circle and Krampf Circle were valued at \$110,300 and \$105,900, respectively. The Town also completed work on rebuilding College Street, a joint project with Bowdoin College, Brunswick Topsham Water District and Brunswick Sewer District. College Street with sidewalks, crosswalks and drainage is valued at \$808,915. Rossmore Road was another Town project during the year, adding \$333,850. Other additions, totaling \$166,613, included several sidewalk projects and raised crosswalks on Maine Street.

A table comparing the Town's capital assets (net of depreciation) as of June 30 for this and the prior fiscal year is shown following.

Town of Brunswick's Capital Assets (net of depreciation)

Additional information on the Town of Brunswick's capital assets can be found in note IV.D on pages 61 and 62 of this report.

Long-term debt. At the end of the current fiscal year, the Town of Brunswick had total bonded debt outstanding of \$27,322,912, all of which is general obligation debt.

Town of Brunswick's Outstanding Long-term Debt

	Governmental		Business-type		Total	
	activities		activities			
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
General obligation bonds	\$ 27,322,912	\$ 30,211,025	\$ -	\$ -	\$ 27,322,912	\$ 30,211,025
Total	\$ 27,322,912	\$ 30,211,025	\$ -	\$ -	\$ 27,322,912	\$ 30,211,025

The amount of principal debt retired during the year totaled \$2,888,113. The Town's outstanding debt is rated Aa2 by Moody's Investors Service. In January, 2014, Standard & Poor's completed a review and updated their rating of the Town's bonds from AA to AA+.

Maine law limits the amount of general obligation debt a governmental entity may issue to an amount equal to 15% of its total State assessed valuation. The current debt limitation for the Town is \$303,937,500, which is significantly in excess of the Town's outstanding general obligation debt. Within the 15% total debt limitation, there are also categorical limits. Those categories include debt limits for

schools, sewers, airports, and other municipal projects. The Town is well within each of those categorical limits.

Subsequent to June 30, 2014, the Town Council authorized additional debt for up to a total of \$1,180,800. \$454,800 was authorized to finance an air quality project at the Brunswick Junior High School, up to \$580,000 was authorized for a road reconstruction project, and \$146,000 was authorized for the purchase of a public works sidewalk tractor and associated attachments.

Additional information on the Town's long-term debt can be found in note IV.F on pages 63-68 of this report, and additional information on subsequent events can be found in note V.I. on page 74.

Economic Factors and Next Year's Budgets and Rate

As in prior years, development of the 2014-15 municipal budget was affected by proposals made during the State's budget process. From a municipal perspective, the most troubling proposals have been those related to revenue sharing, a program by which, since 1972, the State has shared a portion of its income and sales tax revenues with municipalities in order to provide a measure of property tax relief. A 2013 proposal to virtually eliminate revenue sharing followed several years during which the State transferred funds from the revenue sharing pool to its general fund. For the biennial budget, adopted in 2013, the Legislature rejected the Governor's proposal to eliminate revenue sharing. However, the state budget substantially reduced the revenue sharing pool in 2013-14 and called for further reductions in 2014-15.

For 2014-15, the revenue sharing pool was scheduled to be cut an additional \$40 million. However, the supplemental State budget, developed by the Legislature's Committee on Appropriations and Financial Affairs, restored most of this scheduled cut. Still, the Town of Brunswick's 2014-15 budget for state revenue sharing was reduced \$81,329 from the previous year.

In addition to eliminating revenue sharing, the Governor's biennial budget also proposed nearly flat funding for state aid to education. Further, it required that school units pay the normal cost of the teacher plan administered by the Maine Public Employees Retirement System (MainePERS). Teacher plan retirement costs have historically been funded by the State. Although the Legislature modified the Governor's education funding proposals, the normal cost of teacher retirement must now be included in the local school budget. However, the State budget did increase the level of education aid to cover that cost.

As in the previous three budgets, the 2014-15 municipal budget made significant use of reserves. Even with these uses, the budget still required a property tax rate increase of 3.25%. Though less than last year's rate increase of 6.59%, the Town Council has committed to a program of longer term financial planning to anticipate budget impacts on future property tax rates. The aim of the long-range planning effort is to develop sustainable budgets.

For the fiscal year ended June 30, 2014, the unrestricted fund balance in the General Fund was \$10,107,555, with the unassigned portion of the unrestricted balance at \$8,488,177. The Town's policy for its general fund targets the unassigned fund balance at 16.67% of its GAAP revenues. For the year ended June 30, 2014 the target was \$9,221,199. The actual balance, at 15.34% of GAAP revenues, is \$733,022 below the target. This was anticipated, as the Town Council authorized the use of unassigned general fund balance totaling \$1,286,580 for capital projects during the fiscal year. In accordance with the fund balance policy, the Town intends to develop a plan to bring the balance to the target level over a period of no more than three years.

Requests for Information

This financial report is designed to provide a general overview of the Town of Brunswick's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for financial information should be addressed to the Town of Brunswick, Office of the Finance Director, 85 Union Street, Brunswick, ME 04011.

Amounts reported for governmental activities in the statement of net position are different because (see Note II.A., also):

Capital assets used in governmental activities are not financial resources and, therefore are not reported in the funds.	82,955,758
Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable in the funds.	940,666
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(29,903,995)
Internal service funds are used by management to charge the costs of printing services to the funds.	
The assets and liabilities of the internal service fund are not included in the governmental funds.	75,239
Net position of governmental activities (see Statement 1)	<u>\$ 73,249,949</u>

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Town of Brunswick is a municipal corporation (Town or primary government) governed by an elected nine-member council (Town Council). The accompanying financial statements present information for the primary government.

Prior to the fiscal year ended June 30, 2014, the Town reported Brunswick Development Corporation (BDC) as a discrete component unit, as the Town appointed a majority of the directors and because BDC had the potential to provide specific financial benefits to, or impose specific financial burdens on the Town. The BDC was established by the Town Council and incorporated on February 9, 1995 to promote and foster economic development within the Town of Brunswick. Effective July 1, 2013, with a change in the formation and composition of BDC's board of directors, management has determined that BDC should no longer be considered a component unit of the Town.

Related Organizations

The Town of Brunswick appoints a voting majority of the governing boards of each of the entities described below. However, the Town of Brunswick is not financially accountable for these organizations and therefore they are not component units under Statements 14, 39, and 61 of the Governmental Accounting Standards Board.

The Brunswick Housing Authority was established in 1965 pursuant to Maine law. It is managed by five commissioners appointed by the Brunswick Town Council.

The Brunswick Sewer District was established by the State of Maine in 1947 as a quasi-municipal corporation for the purpose of providing and maintaining, within the territorial limits of the District, a sewer system for the collection, treatment and disposal of sewage. The District is managed by a five-member board of trustees appointed by the Brunswick Town Council.

The Brunswick-Topsham Water District was established by the State of Maine in 1903 as a body politic and corporate for the purpose of supplying the inhabitants of the District and said municipalities with pure water for domestic and municipal purposes. The affairs of the District are managed by a six-member board of trustees, four chosen by the Brunswick Town Council and two chosen by the Topsham municipal officers.

B. Government-wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. They report information on all of the non-fiduciary activities of the Town of Brunswick. While government-wide and fund financial statements are presented separately, they are interrelated. The governmental activities column of the government wide statements incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the Town's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. However, data from the fiduciary funds is not incorporated in the government-wide financial statements.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements. The exceptions to this rule are charges between the General Fund and the Solid Waste Facilities fund for landfill disposal fees and administrative costs incurred by the General Fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

C. Fund Financial Statements

The fund financial statements provide information about the Town's funds, including its fiduciary funds and, if the Town had any, blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

1. Major governmental funds

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The *Downtown TIF District Fund* accounts for activities related to the "DEVELOPMENT PROGRAM FOR THE BRUNSWICK DOWNTOWN MUNICIPAL DEVELOPMENT AND TAX INCREMENT FINANCING DISTRICT" adopted on March 1, 2010 (the Downtown Development Program), which consists of five major components. Tax revenues generated by development within the District will be captured and used to fund the activities of the Downtown Development Program.

The *Police Station Building Fund* accounts for a capital project which is funded by long-term debt obligations.

2. Major proprietary funds

The Town reports the following major enterprise funds:

The *Solid Waste Facilities Fund* accounts for the activities at the various solid waste disposal facilities throughout the Town.

The *Pay-Per-Bag Program Fund* accounts for the purchase and sale of Town trash bags.

3. Other fund types

In addition to the major funds described above, the Town reports the following fund types:

Governmental Funds. In addition to the general fund, which is always a major fund and described above, the Town reports three additional fund types in this category.

The *special revenue funds* account for revenue sources that are legally restricted or committed to expenditure for specific purposes (not including permanent funds or major capital projects). The Town reports three nonmajor special revenue funds.

The *capital projects funds* account for the acquisition of capital assets or construction of major capital projects not financed by the Town's major capital improvement funds, proprietary funds or permanent funds. The Town reports seven nonmajor capital project funds.

The *permanent funds* account for resources where principal is legally restricted by a formal trust agreement and only earnings may be used for purposes that benefit the Town or its citizenry. The Town reports five nonmajor permanent funds.

Proprietary Funds. These funds can be classified into two fund types:

Enterprise funds account for those operations that are financed and operated in a manner similar to private business or where management has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The Town's enterprise funds consist of the activities of the Solid Waste Facilities operations, the Pay-per-bag Program, the Mere Point Wastewater District and the Train Station.

Internal service funds are used to account for those operations which provide benefits to other funds, departments, or agencies of the primary government and its component unit. The Town's internal service fund accounts for printing services provided to departments on a cost reimbursement basis.

Fiduciary Funds account for assets held by the Town in a trustee capacity or as an agent on behalf of others. As such, fiduciary funds are not reported in the government-wide statements. The Town's fiduciary funds include the following:

Private-purpose trust funds are used to report all trust arrangements, other than those properly reported in pension trust funds or investment trust funds, under which principal and income benefit individuals, private organizations, or other governments. These include Scholarship and Education Funds, Public Library Funds, a Village Improvement Fund and a Recreation Fund.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. The Student Activities Fund is used to account for assets that the government holds for others in an agency capacity.

4. Inter-fund activity

During the course of operations, the Town has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

1. Government wide financial statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

2. Governmental funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, charges for service, licenses, and interest on notes receivable associated with the current fiscal period are all considered to be susceptible to accrual and accordingly have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available when cash is received.

In accordance with Governmental Accounting Standards Board Statement No. 24, *Accounting and Reporting for Certain Grants and Other Financial Assistance*, payments the State of Maine makes to the Maine Public Employee Retirement System on behalf of teachers and certain other school department employees are reflected as both revenues and expenditures in the General Fund.

3. Proprietary funds and private-purpose trust funds

The Town's proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting.

4. Agency funds

Agency Funds have no measurement focus but utilize the accrual basis of accounting for reporting assets and liabilities.

E. Budgetary Information

1. Budgetary basis of accounting

An annual budget of the general fund is adopted on a basis consistent with generally accepted accounting principles (GAAP). The capital project funds are appropriated on a project-length basis. Other special revenue funds and permanent funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards and endowment requirements) and sometimes span a period of more than one year.

2. Legal level of budgetary control

The general fund budget is legally adopted by the town council through the passage of an appropriation resolution. By state law, that portion appropriated for educational purposes must be validated through a referendum vote. The town charter states that the town manager may at any time transfer any unencumbered appropriation balance, or portion thereof, between general classifications of expenditures within an office, department or agency. Accordingly, the legal level of budgetary control is an office, department or agency. Historically, the appropriated budget for the General Fund is prepared by

department or activity. This has been interpreted to be equivalent to the charter language of office, department or agency. The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund (Statement 6) reports at the legal level of control. Town council authorization is required when expenditures exceed appropriations.

All appropriations of the General Fund lapse at the end of the fiscal year to the extent that they have not been expended or lawfully encumbered. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as an assignment of fund balance and do not constitute expenditures or liabilities. The encumbrances are re-appropriated and honored during the subsequent year.

3. Final budget amounts

The amounts reported as “Final Budgeted Amounts” on the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual, for the General Fund, include the adopted budget as well as prior-year encumbrances, additional appropriations, and adjustments.

F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balances

1. Cash, cash equivalents and investments

The Town’s cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition and readily convertible to cash.

The Town has established a formal investment policy that governs the investment of all funds other than its permanent funds, private-purpose trust funds, and agency funds. Pursuant to its investment policy and applicable Maine law (Title 30-A, Section 5706 *et seq.* of the Maine Revised Statutes, as amended) all investments of the Town must be made with the judgment and care that persons of prudence, discretion and intelligence, under circumstances then prevailing, exercise in the management of their own affairs, not for speculation but for investment considering (i) safety of principal and maintenance of capital, (ii) maintenance of sufficient liquidity to meet all operating and cash requirements with which a fund is charged, that is reasonably expected, and (iii) return of income commensurate with avoidance of unreasonable risk. Under its policy, the Town’s investment practice is to invest its operating funds in short-term investments. The Town is not invested in any obligations typically referred to as derivatives.

Investments for the Town are reported at fair value.

2. Receivables and payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “advances to/from other funds”. All other outstanding balances between funds are reported as “due to/from other funds”.

Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable governmental funds to indicate that they are not expendable financial resources and are therefore not available for appropriation.

3. Inventories and prepaid items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital assets

Capital assets, which include property, equipment, intangibles, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. All infrastructure, regardless of acquisition date, has been reported.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities has not been included as part of the capitalized value of the assets constructed.

Property, equipment, intangibles and infrastructure of the Town is depreciated using the straight line method over the assets' estimated useful lives ranging from 5 to 50 years.

<u>Assets</u>	<u>Years</u>
Buildings	45-50
Improvements other than buildings	5-20
Machinery and equipment	5-20
Vehicles	5-20
Intangibles	5-20
Infrastructure	20-50

5. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In the past, the Town has had only one item that qualified for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and ambulance user fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

6. Net position flow assumptions

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It

is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

7. Fund balance flow assumptions

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

8. Fund balances

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Town itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

In the fund financial statements, governmental fund balance is presented in five possible categories:

Nonspendable – resources which cannot be spent because they are either a) not in spendable form; or b) legally or contractually required to be maintained intact.

Restricted – resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – resources which are subject to limitations the Town imposes upon itself at its highest level of decision making, and that remain binding unless removed in the same manner. The Town Council is the highest level of decision making authority, and can commit fund balance by ordinance.

Assigned – resources neither restricted nor committed for which the Town has a stated intended use as established by the Town Council or a body or official to which the Town Council has delegated the authority to assign amounts for specific purposes. The Town Council has a fund balance policy that requires certain items to be classified as assigned. Further, the policy gives discretion to the Town Manager and Finance Director to make assignments as they deem appropriate in their professional judgment.

Unassigned – resources which cannot be properly classified in one of the other four categories. The General Fund should be the only fund that reports a positive unassigned fund balance amount.

9. Fund balance policy

The Town has an adopted Fund Balance Policy for the General Fund. This policy lists the criteria to be used in evaluating fund balance requirements, and establishes a minimum target balance for the unassigned category of fund balance. In addition, the policy establishes a process for reaching and maintaining the targeted level of unassigned fund balance, and the priority for the use of amounts in excess of the target.

10. Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

11. Use of estimates

Preparation of the Town's financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent items at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

G. Revenues and Expenditures/Expenses

1. Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions. All taxes, including those dedicated for specific purposes, are reported as general revenues.

2. Property taxes

Property taxes are committed on or around September 1st of each year, on the assessed value listed as of the previous April 1st. Real property taxes are due in two installments, on or near October 15th and April 15th. Personal property taxes are due in one installment on or near October 15th. Taxes unpaid by the due date are assessed interest. Tax liens are placed on real property of delinquent tax accounts within eight to twelve months following the date taxes are committed for collection.

3. Compensated absences

Under the terms of personnel policies and union contracts, vacation and sick leave (compensated absences) are granted in varying amounts according to length of service. Certain employees also earn compensatory time. A liability for vested or accumulated vacation, sick and compensatory leave is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. All accumulated leave is accrued when incurred in the government-wide financial statements. However, sick leave is valued based on the vesting method that calculates the amount of sick leave that is expected to become eligible for payout at termination.

4. Proprietary funds operating and non-operating revenues and expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds and internal service fund are charges for services to customers. Operating expenses for the enterprise funds and the internal service fund include the cost of personnel, contractual

services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position.

One element of that reconciliation explains that “capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.” The details of this \$82,955,758 are as follows:

Capital assets	\$ 130,552,988
Accumulated depreciation	<u>(47,597,230)</u>
Net adjustment to increase fund balance - total governmental funds to arrive at net position - governmental activities	\$ 82,955,758

Another element of that reconciliation explains that “other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable in the funds.” The details of this \$940,666 difference are as follows:

Deferred inflows - unavailable revenue - property tax	\$ 721,220
Deferred inflows - unavailable revenue - miscellaneous	<u>219,446</u>
Net adjustment to increase fund balance - total governmental funds to arrive at net position - governmental activities	\$ 940,666

Another element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$(29,903,995) difference are as follows:

Bonds payable	\$ (27,322,912)
Premium on bonds (to be amortized as interest expense)	(179,782)
Accrued interest	(121,861)
School retirement incentive	(112,465)
Compensated absences	(1,403,542)
Other post employment benefits	<u>(763,433)</u>
Net adjustment to decrease fund balance - total governmental funds to arrive at net position - governmental activities	\$ (29,903,995)

Another element of that reconciliation explains that “internal service funds are used by management to charge the costs of printing services to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.” The details of this \$75,239 difference are as follows:

Net position of the internal service fund	\$ 89,167
Less: Capital assets net of accumulated depreciation	<u>(13,928)</u>
Net adjustment to increase fund balance - total governmental funds to arrive at net position - governmental activities	\$ 75,239

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position – governmental activities as reported in the government-wide statement of activities.

One element of that reconciliation explains that “governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this \$7,015,450 difference are as follows:

Capital outlay	\$ 10,793,329
Depreciation expense	<u>(3,777,879)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ 7,015,450

Another element of that reconciliation states that “losses arising from the disposal of existing capital assets are reported in the statement of position but do not appear in the governmental funds.” The details of this \$(242,943) difference are as follows:

Cost of disposed capital assets	\$ (1,902,740)
Accumulated depreciation on disposed capital assets	<u>1,659,797</u>
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ (242,943)

Another element of that reconciliation states that “revenues in the statement of activities that do not provide current resources are not reported as revenues in the funds.” The details of this \$154,506 difference are as follows:

Property taxes	\$ 143,407
Charges for services	87,774
Other revenues	<u>(76,675)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ 154,506

Another element of that reconciliation states that “the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$2,888,113 difference are as follows:

Principal repayments: General obligation debt	<u>\$ 2,888,113</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ 2,888,113

Another element of that reconciliation states that “some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$45,610 difference are as follows:

TOWN OF BRUNSWICK, MAINE **Notes to Financial Statements**

Compensated absences	\$	5,122
School retirement incentive		39,623
Post employment benefits annual required contribution		(145,631)
Contract obligations		125,280
Accrued interest		4,519
Amortization of premium on refunding and general obligation bonds		25,291
Amortization of deferred charge on refunding		(8,594)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	\$	45,610

Another element of that reconciliation states that “internal service funds are used by management to charge the costs of printing services to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.” The details of this \$24,563 difference are as follows:

Change in net position of the internal service funds	\$	20,038
Plus: depreciation on capital assets		14,437
Less: acquisition of capital assets		(11,641)
Plus: book value of disposed assets		1,729
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$	24,563

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Control

The accounting system is employed as a budgetary management control device to monitor the individual departments. Encumbrance accounting is employed in the governmental funds.

B. Budgetary Use of Fund Balance

The Town utilizes fund balance as a source of funds for the General Fund budget. For the year ended June 30, 2014, the Town budgeted and utilized the following amounts:

	<u>As of June 30, 2013</u>			
	<u>Original Budget</u>	<u>Encumbered Balances</u>	<u>Additional Appropriations</u>	<u>Final Budget</u>
Restricted fund balance:				
Educational purposes	\$ 2,800,000	\$ -	\$ -	\$ 2,800,000
Municipal purposes	20,000	-	-	20,000
Assigned fund balance:				
Municipal purposes	1,000,000	-	465,000	1,465,000
Encumbrances	-	67,397	-	67,397
Unassigned fund balance:				
Educational purposes	-	-	186,580	186,580
Municipal purposes	-	-	1,100,000	1,100,000
Total utilization of fund balance	<u>\$ 3,820,000</u>	<u>\$ 67,397</u>	<u>\$ 1,751,580</u>	<u>\$ 5,638,977</u>

C. Additional Appropriations

1. Supplemental appropriations

The Town Council made several supplemental budgetary appropriations throughout the year totaling \$1,751,580. Of this amount, \$465,000 was appropriated to fund the capital budget. Additional appropriations throughout the year included:

McLellan Building (new Town Hall) renovation	\$ 950,000
Advance to School department	186,580
McLellan Building (new Town Hall) additional costs	<u>150,000</u>
	\$1,286,580

2. On-behalf payments

The payments the State of Maine makes to the Maine Public Employees Retirement System (Maine PERS) for retirement and other benefits, on behalf of the Town for teachers and other school employees, are reported as additional appropriations in both the revenue and expenditure budgets. The amounts of on-behalf payments for fiscal year 2013-14 were \$2,038,000 for retirement, and \$365,000 for other benefits.

D. Budget Adjustments

The adjustments are generally the result of the Town’s management process which monitors department budgets and the budget in total. The Town Council, upon the request of the town manager, may move funds from departments with anticipated budget surpluses to those with anticipated budget shortfalls. Adjustments of this type have no impact on the budget in total. During the year, adjustments totaling \$270,000 were made by moving appropriations from accounts with projected balances to accounts where it appeared that the expenditures would have exceeded the appropriations.

E. Authority to Over Expend

On June 23, 2014, the Town Council adopted a resolution authorizing expenditures to exceed the gross appropriation in an appropriated account so long as the amount was \$10,000 or less. Additionally on June 23, 2014, the Town Council adopted a resolution authorizing the over-expenditure of up to \$90,000 in the Public Works Central Garage operations. On August 4, 2014, the Town Council authorized the over-expenditure of up to \$40,000 to fund unanticipated expenditures paid from the Technology Services accounts. The Town exceeded its authorization to over expend by \$957 in the Refuse Collection accounts.

F. Deficit Fund Balance or Net Position

The following *fund balance deficits* exist at June 30, 2014:

Downtown Development TIF District Fund	\$(945,524)
--	-------------

The Downtown Development TIF District Fund accounts for activities related to the “DEVELOPMENT PROGRAM FOR THE BRUNSWICK DOWNTOWN MUNICIPAL DEVELOPMENT AND TAX INCREMENT FINANCING DISTRICT” adopted on March 1, 2010 (the "Downtown Development Program"), which consists of five major components. Tax revenues generated by development within the District will be captured and used to fund the activities of the Downtown Development Program. The deficit balance in this account is the result of advances to fund land acquisition and construction activities. Those advances are expected to be repaid from tax increment financing (TIF) revenues generated within the District over the thirty-year life of the District. Should there not be sufficient revenues the advances will not be repaid.

The following *net position deficit* exists as of June 30, 2014:

Solid Waste Facilities Fund	\$(4,111,767)
-----------------------------	---------------

The deficit balance in the Solid Waste Facilities Fund is primarily the result of insufficient assets to fund the liability that the Town has accumulated for the closure and post-closure of its landfills. The Town has implemented two strategies to reduce the deficit, annual subsidies from the General Fund, and its plan to use accumulated net revenue from its pay-as-you-throw residential solid waste collection program. Should a deficit remain at the time the operating landfill is closed, debt may be issued to finance the closure costs.

IV. DETAILED NOTES ON ACTIVITIES AND FUNDS

A. Deposits and Investments

As of June 30, 2014, the Town of Brunswick had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Years)</u>
Certificates of Deposit	\$ 10,025,861	N/A
Money-market Mutual Funds	7,396,959	N/A
Equities	347,019	N/A
Other Mutual Funds	987,986	N/A

Interest rate risk. The Town does not currently have a deposit policy for interest rate risk.

Credit risk. The Town does not have a formal policy regarding credit risk. Maine statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, and certain corporate stocks and bonds. At June 30, 2014, the Town was not invested in corporate bonds.

Custodial credit risk – deposits. This is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. At June 30, 2014, the bank balance of \$6,354,873 was covered by the FDIC and the tri-party collateral agreement among the Town of Brunswick, Bank of America, and Bank of New York. Although CDs have been classified as investments for financial reporting, they are considered deposits for the purposes of custodial credit risk disclosure. All CDs are fully insured by the FDIC.

Custodial credit risk – investments. This is the risk that in the event of failure of the counterparty, the Town will not be able to recover the value of its investments. The Town does not have an investment policy for custodial credit risk. None of the Town's investments are subject to custodial credit risk.

Concentration of credit risk. At June 30, 2014, the Town did not have a policy for concentration of credit risk.

B. Receivables

Receivables at June 30, 2014 consist of the following:

	General <u>Fund</u>	Other Governmental <u>Funds</u>	Enterprise <u>Funds</u>	<u>Total</u>
Taxes	\$ 810,923	\$ -	\$ -	\$ 810,923
Tax liens	292,495	-	-	292,495
Accounts	727,414	78,988	51,569	857,971
Intergovernmental	<u>11,925</u>	<u>358,126</u>	-	<u>370,051</u>
Gross receivables	1,842,757	437,114	51,569	2,331,440
Less: Allow ance for uncollectibles	<u>(33,912)</u>	<u>-</u>	<u>-</u>	<u>(33,912)</u>
Net receivables	\$ 1,808,845	\$ 437,114	\$ 51,569	\$ 2,297,528

Property taxes for the current year were committed September 6, 2013 on the assessed value listed as of April 1, 2013, for all taxable real and personal property located in the Town. Real property taxes were due in two installments, October 15, 2013 and April 15, 2014. Personal property taxes were due in one installment, October 15, 2013. Interest was charged at the rate of 7.00% on all taxes unpaid as of the due date(s).

Assessed values are periodically established by the Tax Assessor at 100% of assumed market. Each property must be reviewed no less than once every four years. The assessed values must be at least 70% of full valuation. The assessed value, net of value captured in tax increment financing districts, as of April 1, 2013, upon which the levy for the year ended June 30, 2014 was based, was \$1,314,481,800. This assessed value was 70% of the estimated market value and 66.27% of the 2013 State valuation of \$1,983,450,000.

Maine law permits the Town to levy taxes up to 105% of its net property tax requirement (budgeted expenditures less budgeted non-property tax revenues) for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$94,684 for the year ended June 30, 2014.

Tax liens are placed on real property of delinquent tax accounts within eight to twelve months following the date taxes are committed for collection. Provided the Town has followed the statutory provisions, the tax lien automatically forecloses if the tax lien and associated costs remain unpaid eighteen months from the date the lien is recorded in the Cumberland County Registry of Deeds.

Maine law authorizes municipalities to establish tax increment financing districts (TIFs). A TIF allows the municipality to capture the new, or incremental, tax revenue generated within a defined development district and use that captured tax revenue in accordance with a development plan for that district. The new, or incremental, assessed valuation and related tax revenue in the TIF district is not available to the Town's General Fund. For the year ended June 30, 2014, the Town had a total of \$42,301,800 in captured valuation for five TIF districts. The tax revenue captured in these districts totaled \$1,122,690 for the year.

C. Long-term Receivables

During the fiscal year ended June 30, 2014, the Town of Brunswick collected in full one long-term receivable. The Town sold a parcel of real estate to Kelley and Kelley Development, LLC on October 6, 2011, and, as part of the sale, took a promissory note with an original amount of \$90,000. The note provided for an annual interest rate of 5% amortized on a 10 year basis, with a balloon payment due April 10, 2014, 30 months from the date of issuance.

D. Capital Assets

Capital asset activity for the year ended June 30, 2014 follows.

Governmental activities:

	Balance <u>June 30, 2013</u>	<u>Additions</u>	<u>Retirements</u>	Balance <u>June 30, 2014</u>
Capital assets, not being depreciated:

Infrastructure	(471,141)	(23,557)	-	(494,698)
Total accumulated depreciation	(6,457,362)	(280,681)	76,604	(6,661,439)
Total business-type capital assets being depreciated, net	2,317,176	(162,504)	-	2,154,672
Business-type activities capital assets, net	<u>\$ 2,432,176</u>	<u>\$ (162,504)</u>	<u>\$ -</u>	<u>\$ 2,269,672</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:

General government	\$ 341,970
Public safety	410,167
Public works, including depreciation of general infrastructure assets	992,807
Human services	12
Education	1,817,261
Recreation and culture	215,662
Total depreciation expense - governmental activities	<u>\$ 3,777,879</u>

Business-type activities:

Mere Point wastewater	\$ 23,557
Solid Waste facilities	127,468
Train Station/Visitors Center	14,808
Total depreciation expense - business-type activities	<u>\$ 165,833</u>

For business-type activities, depreciation expense differs from depreciation additions by \$114,848, the amount of accumulated depreciation on an asset retired from Public Works and added to the Landfill.

E. Leases

During the fiscal year ended June 30, 2014, the Town was a lessee in a variety of operating leases, two of which are considered material. The Town is a lessor in two operating leases, neither of which are considered material.

Town as Lessee:

Municipal Meeting Facility

In April 2009, the Town executed a five-year agreement with Bowdoin College to sub-lease approximately 2,537 square feet of space the College had leased at Maine Street Station (now Brunswick Station) from JHR Development of Maine (JHR). The Town used the leased space as a meeting facility for the Town Council and the Town's other boards and committees. As a result of the McLellan Building/Longfellow School property exchange between Bowdoin College and the Town, and the move of the council chambers and TV function to the McLellan Building, the lease was terminated on December 31, 2013. During the fiscal year ended June 30, 2014 the total lease expense was \$18,881.

Train Station and Visitor's Center

In June 2009, the Town executed a five-year agreement with JHR Development of Maine (JHR) to lease approximately 2,125 square feet of space at JHR's Brunswick Station development (formerly Maine Street Station). The Town uses the leased space as a train station and visitor's center, subcontracting with the Brunswick Downtown Association (BDA) to manage the operation. The term of the initial five-year lease began November 1, 2009. During the year ended June 30, 2009, the Town received a \$220,000 grant from the Brunswick Development Corporation (BDC) which allowed the Town to pre-pay all five years of the rent. On April 15, 2014 the Town and JHR signed an amendment to the lease, extending the agreement five years, to November 1, 2019. For the year ended June 30, 2014 the lease expense was \$44,000. For future years lease expenses will be recognized as follows:

<u>Year Ending June 30,</u>	<u>Lease Payments</u>
2015	\$ 44,000
2016	44,000
2017	44,000
2018	44,000
2019	14,667
	<u>\$ 190,667</u>

F. Long-term Liabilities

1. General obligation bonds

The Town issues general obligation debt to provide funds for acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Town. General obligation bonds currently outstanding are as follows:

TOWN OF BRUNSWICK, MAINE **Notes to Financial Statements**

<u>Purpose</u>	<u>Issue Date</u>	<u>Amount Issued</u>	<u>Interest Rate</u>	<u>Final Maturity Date</u>	<u>Annual Principal Payments</u>	<u>Amount Outstanding</u>
<u>Governmental Activities</u>						
					\$ 200,000	
2006 Fire Station & Truck	2006	\$ 3,125,000	4.00%	2021	to 275,000	\$ 1,400,000
			2.00%			
2010 Elementary School	2010	21,462,250	to 5.50%	2030	1,073,113	18,242,912
			2.00%		270,000	
2011 GO Bonds	2011	4,120,000	to 3.00%	2021	to 555,000	2,455,000
			2.00%			
2013 Police Station	2013	5,500,000	to 3.50%	2033	275,000	5,225,000
						<u>\$ 27,322,912</u>

All long-term debt of the Town of Brunswick has been issued as general obligation. All of the 2010 Elementary School Bonds were issued through the Maine Municipal Bond Bank (MMBB). A large percentage of those were issued as Build America Bonds (BABs). Interest on BABs is taxable. The issuer, in this case MMBB, files annually for an interest subsidy from the US Treasury. The subsidy lowers the effective interest rate. Further, 87% of the debt service on the Elementary School Bonds is eligible for State subsidy.

The amounts required to amortize all bonds and notes outstanding as of June 30, 2014 are as follows:

<u>Year Ending June 30</u>	<u>Governmental Activities</u>				
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>	<u>BAB Subsidy</u>	<u>Net Total</u>
2015	\$ 2,103,112	\$ 940,739	\$ 3,043,851	\$ (232,602)	\$ 2,811,249
2016	2,098,113	894,062	2,992,175	(228,895)	2,763,280
2017	1,818,112	845,262	2,663,374	(220,447)	2,442,927
2018	1,818,113	792,811	2,610,924	(210,212)	2,400,712
2019	1,818,112	736,377	2,554,489	(198,583)	2,355,906
2020-2024	7,680,563	2,839,253	10,519,816	(795,151)	9,724,665
2025-2029	6,740,563	1,498,074	8,238,637	(413,716)	7,824,921
2030-2033	3,246,224	183,020	3,429,244	(37,364)	3,391,880
Total	\$ 27,322,912	\$ 8,729,598	\$ 36,052,510	\$ (2,336,970)	\$ 33,715,540

For the year ended June 30, 2014, the Town paid \$2,888,113 in principal and \$763,215 in interest (net of \$232,603 BABs subsidy) for a total of \$3,621,328 in debt service payments. Due to federal sequestration, the BABs subsidy was reduced in FY 14 by a total of \$18,492. The amount of the sequestration reduction for the November 1, 2013 interest payment subsidy was \$10,118, or an 8.7% reduction. The May 1, 2014 interest payment subsidy was reduced by \$8,374, or 7.5%. 87% of the sequestration reduction is eligible for State subsidy. The Town anticipates BABs subsidy reductions in future years, but cannot estimate the amount of the reduction going forward.

Additional debt authorizations: Additional debt was authorized after June 30, 2014, as follows. Also see Note "V. ADDITIONAL INFORMATION – I. Subsequent Events" herein.

On July 7, 2014 the Town Council adopted "An Ordinance Authorizing the Acquisition and Installation of Heating, Ventilation, Cooling, and Related Equipment at the Junior High School, with Total Project Costs Not to Exceed \$454,080 (plus any other costs authorized hereunder), and Further Authorizing Issuance of

Bonds and Notes in an Amount not to Exceed \$454,080 (plus cost of issuance), plus any Additional Appropriation Authorized Hereunder.”

On September 2, 2014 the Town Council adopted “An Ordinance Authorizing Storm Drain Improvements and Reconstruction of Nancy Drive, Patricia Road and Pierce Lane, with Total Project Costs Not to Exceed \$580,000 (plus any other authorized costs), and Further Authorizing Issuance of Bonds and Notes in an Amount not to Exceed \$580,000 (plus the cost of issuance).”

On September 2, 2014 the Town Council adopted “An Ordinance Authorizing the Acquisition of a Sidewalk Tractor and Associated Attachments, with Total Project Costs Not to Exceed \$146,000 (plus any other authorized costs), and Further Authorizing Issuance of Bonds and Notes in an Amount not to Exceed \$146,000 (plus the cost of issuance).”

State reimbursement for debt service expenditures: The State of Maine currently subsidizes the Town for debt service costs for state approved school construction projects. The subsidy is based on formulas prescribed in Title 20-A M.R.S.A. Continuation of such subsidy is dependent upon the formulas and continued appropriations by the state legislature.

Legal debt limit: The amount of debt a Maine municipality may have is governed by Title 30-A M.R.S.A. section 5702. The law limits total debt and debt for specific categories. The Town’s debt is within both the total and categorical limits prescribed in the law. A full presentation of the debt limit calculations can be found in the statistical section of this Comprehensive Annual Financial Report (CAFR).

2. Compensated absences

Recorded long-term compensated absences are as follows:

<u>Type of Leave</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Sick paid upon termination	\$ 431,701	\$ 3,576
Vacation	590,805	5,978
Compensatory time	54,390	-
School retirement stipend	326,646	-
Totals	<u>\$ 1,403,542</u>	<u>\$ 9,554</u>

3. Other post-employment benefits

Maine Municipal Employees Health Trust

Plan Description: The Town is a member of the Maine Municipal Employees Health Trust (MMEHT), an agent multiple-employer healthcare plan that provides employment and post-employment healthcare benefits. Retiree eligibility to receive health care benefits follows the same requirements as the retirement requirement of the Maine Public Employees Retirement System (MainePERS), meaning that employees eligible to retire under MainePERS are eligible to participate in the retiree health benefit offered by MMEHT. Eligible retirees are required to pay 100% of the health insurance premiums to receive healthcare benefits. For non-Medicare eligible retirees, premiums are the same as for active employees. Medicare eligible retirees pay reduced premiums and the coverage is adjusted to supplement Medicare.

MMEHT contracts with an actuarial consultant to provide a biennial actuarial valuation of the Town’s OPEB liability under GASB Statement 45. The most recent OPEB liability actuarial valuation was completed in October 2013 for the fiscal years ending June 30, 2013 and June 30, 2014. A copy of the

TOWN OF BRUNSWICK, MAINE **Notes to Financial Statements**

financial report and the required supplementary information for the Health Trust may be obtained from the Maine Municipal Employees Health Trust, 60 Community Drive, Augusta, ME 04333.

Funding policy: GASB Statement 45 does not mandate the prefunding of postemployment benefits liability. The Town currently funds these benefits on a pay-as-you-go basis. No assets have been segregated and restricted to provide postemployment benefits.

Annual OPEB cost: The Town's annual OPEB cost is calculated based on the annual required contribution (ARC), an actuarially determined amount. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize unfunded actuarial liabilities over a period not to exceed thirty (30) years. The components of the Town's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Town's net OPEB obligation are summarized in the following table.

Normal cost	\$ 69,411
Amortization of Unfunded	137,043
Interest	<u>4,089</u>
Annual Required Contribution	210,543
Interest on Net OPEB Obligation	5,501
Amortizing Adjustment to ARC	<u>(7,953)</u>
Annual OPEB Cost	208,091
Contributions made	<u>(62,460)</u>
Increase in Net OPEB Obligation	145,631
Net OPEB obligation - beginning of year	<u>617,802</u>
Net OPEB obligation - end of year	<u><u>\$ 763,433</u></u>

The following table represents the OPEB costs, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal year ended June 30, 2014 and two preceding years:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2012	184,382	38.92%	480,280
June 30, 2013	210,543	34.68%	617,802
June 30, 2014	208,091	30.02%	763,433

Funding Status and Funding Progress: The funded status of the plan as of June 30, 2014 was as follows:

Actuarial accrued liability	\$ 2,464,551
Plan assets	<u>-</u>
Unfunded actuarial accrued liability	\$ 2,464,551
Funded ratio	0%
Covered payroll	\$ 8,114,329
Unfunded actuarial accrued liability as a percentage of covered payroll	30.37%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress, found in the required supplementary information (RSI) on page 75, provides multiyear trend information (six years available) that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions: Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefits costs between the Town and plan members at that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets. Significant methods and assumptions were as follows:

Actuarial valuation date	1/1/2013
Actuarial cost method	Projected unit credit
Amortization method	Level dollar
Amortization period	Open, 30 years
Actuarial assumptions:	
Discount rate	4.00%
Rate of salary increases	3.00%
Ultimate rate of medical inflation	4.25%

4. Landfill closure and postclosure care cost

Statement No. 18 of the Government Accounting Standards Board (GASB) entitled “*Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs*” requires the Town to record a liability for the estimated costs of landfill closure and postclosure care, as required by governmental authorities.

State and federal regulations require that the Town place a final cover on its current operating landfill when waste is no longer accepted and to perform certain maintenance and monitoring functions at the landfill for a period of thirty years after closure. In addition to operating expenditures related to current activities of the landfill, a related liability is recognized based on the future closure and postclosure care costs that will be paid near or after the date that the landfill stops accepting waste. The Town reports a portion of these closure and postclosure care costs as a liability in the statement of net position based on landfill capacity used as of June 30, 2014.

The actual costs of closure and postclosure care may be higher due to inflation, changes in technology, or changes in laws or regulations. The Town intends to pay for the actual closure and post-closure costs with funds collected and retained in the solid waste enterprise fund. If those funds are not sufficient, the Town will look to other funding sources including the pay-per-bag enterprise fund, long-term debt, and subsidies from the General Fund.

The Town has the following solid waste facilities:

Graham Road Landfill: This facility was designed with three cells, with construction and use of the individual cells to be phased in over the life of the facility. As of June 30, 2014, the Town estimates the facility has a remaining capacity of 21.72% and, at current disposal rates, will continue accepting waste for 16-22 more years. The Town estimates the final closure cost for the entire facility to be approximately \$6,460,000. The total post-closure care costs are estimated at \$2,135,000 which is an annual cost of \$71,167 for 30 years. Of the total estimated liability, \$8,595,000, the Town estimates that \$6,728,218 is applicable to this facility based on the estimated capacity used as of June 30, 2014.

The landfill operates under strict environmental regulations and its operation is dependent on continued compliance with existing and future regulations. The facility’s wastewater discharge license was renewed in August 2011. For several years, the Town has worked with the Maine Department of Environmental Protection (DEP) to comply with, or seek waivers from, certain discharge parameters set by the United States Environmental Protection Agency (EPA). The Town believes that treatment options to meet those parameters will be costly and will not appreciably impact water quality. Initially, the Town believed it could obtain a waiver of those limits based upon Fundamentally Different Factors (FDF), the variance process described in its 2004 wastewater discharge license. Late in 2010, the Town learned that the waivers it sought were not available. Through January, 2012, the Town and the Maine Department of Environmental Protection (DEP) worked to negotiate an Administrative Consent Agreement (ACA) to resolve violations of certain wastewater discharge limits and other operational violations. Late in 2012, the Town and DEP cooperated in the construction and operation of a small-scale experimental treatment facility. The Town operated the facility through the 2013-14 winter months in order to obtain more reliable data about the facility’s effectiveness in cold weather conditions.

Depending on its collaboration with DEP, the cost of wastewater treatment options, and other factors, the Town may ultimately consider closing the landfill. While the Town faces potential fines for its failure to comply with wastewater discharge limits and other violations DEP has indicated that it would not pursue enforcement action so long as the Town and DEP were pursuing a collaborative solution. The Town cannot reasonably estimate the amount of any potential fines, should it once again be faced with enforcement action.

Wood & Masonry Landfill: This facility ceased operations on October 29, 2005. Work to close the facility in accordance with Maine Department of Environmental Protection guidelines was completed as of September 1, 2006. Of the total liability estimated for landfill closure and post-closure care as of June 30, 2014, the Town estimates that \$92,000 is applicable to this facility. This represents annual monitoring at \$4,000 per year for 23 years. The portion of the liability reported as due within one year is \$4,000.

Pleasant Hill Landfill: This facility ceased operations on January 7, 1984 and final closure was completed in September 1984 pursuant to a Maine Department of Environmental Protection Order. The approved closure plan required post closure monitoring for two years and no further monitoring was required. The Town ceased monitoring in 1986 and voluntarily resumed monitoring in 1989. Annual monitoring has now ceased, and effective June 30, 2014 the Town does not recognize a liability for landfill post-closure care for this facility.

G. Changes in Long-term Liabilities

Long-term liability activity for the year ended June 30, 2014, was as follows:

	<u>Balance</u> <u>June 30, 2013</u>	<u>Additions</u>	<u>Deductions</u>	<u>Balance</u> <u>June 30, 2014</u>	<u>Due Within</u> <u>One Year</u>
<u>Governmental Activities</u>					
Bonds payable:

Compensated absences	1,408,664	840,118	(845,240)	1,403,542	430,188
Other post employment benefits	617,802	145,631	-	763,433	-
	<u>\$ 32,594,652</u>	<u>\$ 996,242</u>	<u>\$ (3,808,760)</u>	<u>\$ 29,782,134</u>	<u>\$ 2,602,995</u>

TOWN OF BRUNSWICK, MAINE **Notes to Financial Statements**

	Balance June 30, 2013	Additions	Deductions	Balance June 30, 2014	Due Within One Year
<u>Business-type Activities</u>					
Compensated absences	\$ 7,781	\$ 9,645	\$ (7,872)	\$ 9,554	\$ 1,250
Landfill closure and postclosure care	6,625,081	206,637	(11,500)	6,820,218	4,000
	<u>\$ 6,632,862</u>	<u>\$ 216,282</u>	<u>\$ (19,372)</u>	<u>\$ 6,829,772</u>	<u>\$ 5,250</u>

For the governmental activities, compensated absences and net pension obligations are generally liquidated by the General Fund. For business-type activities, compensated absences and net pension obligations are liquidated by the Solid Waste Facilities Fund. To the extent that the net OPEB obligation is liquidated, it is liquidated by plan member contributions.

H. Components of Fund Balances

The components of the June 30, 2014 fund balance are as follows:

	<u>Nonspendable</u>	<u>Restricted</u>	<u>Committed</u>	<u>Assigned</u>
General Fund:				
Inventories and deposits	\$ 36,767	\$ -	\$ -	\$ -
Education purposes	-	4,773,172	-	-
State road assistance funds	-	82,305	-	-
State revenue sharing funds	-	125,433	-	-
Encumbrances	-	-	-	70,852
Budget appropriation	-	-	-	1,000,000
Supplemental appropriations	-	-	-	200,000
Compensated absences	-	-	-	348,526
Police station building fund	-	11,097	-	-
Capital projects funds:				
Advances and deposits	995,524	-	-	-
Restricted programs/purposes	-	1,157,179	-	-
Appropriated for capital projects	-	-	1,327,163	-
Special revenue funds	13,075	753,780	178,164	-
Permanent funds	557,770	20,877	-	-
Total	<u>\$ 1,603,136</u>	<u>\$ 6,923,843</u>	<u>\$ 1,505,327</u>	<u>\$ 1,619,378</u>

The Town has a Fund Balance Policy for the General Fund. The policy lists criteria to be used in establishing a minimum fund balance target and sets the minimum *unassigned* fund balance at 16.67% of annual GAAP revenues. At June 30, 2014, the Town's unassigned fund balance was at 15.34% of revenues, which is \$733,022 under the target. In accordance with the Town's fund balance policy, the Town intends to develop a plan, implemented through the annual budgetary process, to bring the balance to the target level over a period of no more than three years.

I. Interfund Balances

Interfund balances are composed of two types – due to/due from balances, and advances. The due to/from balances result from receipts and disbursements being made through the General Fund cash accounts. These balances will be eliminated when cash transfers are made to the appropriate funds.

TOWN OF BRUNSWICK, MAINE **Notes to Financial Statements**

The advances are interfund loans from the Capital Improvements Fund to the Downtown Development TIF District Fund.

1. Due to/from other funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Enterprise Funds	\$ 1,503
		\$ 1,503
Recreation Program Funds	General Fund	74,726
Town Restricted Funds	General Fund	321,572
School Restricted Funds	General Fund	91,260
Public Works Projects	General Fund	102,864
Vehicle/Equipment Reserves	General Fund	317,492
Capital Improvement Fund	General Fund	277,302
Private-purpose Trust Funds	General Fund	8,681
Internal Service Fund	General Fund	77,270
		\$ 1,271,167

2. Advances to/from other funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Capital Improvements Fund	Downtown Development TIF District	\$ 945,524

It is anticipated that the advances to the Downtown Development TIF District will be repaid from future TIF revenues.

J. Interfund transfers

	<u>Transfers In:</u>					
	<u>General Fund</u>	<u>Downtown TIF District</u>	<u>Police Station Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Enterprise Funds</u>	<u>Total transfers out</u>
<u>Transfers Out:</u>						
General Fund	\$ -	\$ -	\$ 6,536	\$ 3,077,905	\$ 240,000	\$ 3,324,441
Nonmajor Govt Funds						
Special Revenue Funds	20	370,282	-	180,899	-	551,201
Capital Project Funds	704,245	-	-	-	-	704,245
Total transfers in	<u>\$ 704,265</u>	<u>\$ 370,282</u>	<u>\$ 6,536</u>	<u>\$ 3,258,804</u>	<u>\$ 240,000</u>	<u>\$ 4,579,887</u>

Of the \$3,324,441 transferred out of the General Fund, \$2,992,941 was made for a variety of capital projects. The largest of these include \$1,100,000 for renovations to the new Town Hall at 85 Union St. and other related costs, \$680,580 for vehicle acquisitions, \$513,000 for annual Public Works projects, and \$465,000 for Capital Budget projects. The \$240,000 transfer to Enterprise Funds represents General Fund subsidies of the Graham Road Landfill operations of \$200,000 and the Train Station/Visitors Center of \$40,000. Of the remaining \$91,500, \$86,000 was the annual subsidy of the School Cafeteria Fund, and \$5,500 was the annual contribution to the Memorial Day fund to match small grants.

Transfers in to the General Fund include a budgeted transfer of \$275,000 from the Industrial Park Fund, \$212,144 in unspent bond proceeds used to pay debt service, and \$217,121 in balances from completed projects and activities.

K. Sale of Property (special item)

Sale of property to Brunswick Development Corporation (BDC) – On June 5, the Town finalized the sale of the Recreation building at 30 Federal Street to BDC, coincident with BDC's sale of this property, along with the property at 28 Federal Street, to Coastal Enterprises, Inc. (CEI). The Town recognizes a special item of \$225,000 from this sale.

L. Donor-restricted Endowments

The Town maintains several permanent funds and private-purpose trust funds with donor-restricted endowments. It is the Town's policy that only interest and dividends on investments are authorized for spending. Any appreciation on investments is added to the original endowment and is not authorized for spending.

V. OTHER INFORMATION

A. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and other risks for which the Town and its School Department carry insurance. There have been no significant changes in insurance coverage during the past fiscal year. For the three fiscal years ended June 30, 2014, 2013 and 2012, there have been no settlements in excess of coverage.

The Town belongs to the Maine Municipal Association (MMA) Property and Casualty Pool, for most of its municipal property and liability exposures. The Town's School Department, which obtains coverage separately from the remainder of Town government, continues to insure most of its exposures with a commercial insurance underwriter.

For worker's compensation, both the Town and its School Department participate in the Maine Municipal Association (MMA) Worker's Compensation Pool.

If the assets of either the MMA Property and Casualty Pool or the Worker's Compensation Pool are at any time actuarially determined to be insufficient to enable either pool to discharge its legal liability and other obligations and to maintain actuarially sound reserves, either pool has the power to make up the deficiency by the levy of a prorated assessment upon its members for the amount needed to make up the deficiency. There has been no such deficiency in the past three years. Management believes that no such deficiency exists at June 30, 2014.

Further information including financial statements for the Maine Municipal Association Pools may be obtained from MMA Risk Management Services, 60 Community Drive, P.O. Box 9109, Augusta, ME 04332.

B. Contingencies

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although, except for the items mentioned in the following paragraph, the Town expects such amounts, if any, to be immaterial.

There are various claims and suits pending against the Town that arise in the normal course of the Town's activities. In the opinion of counsel and Town management, the ultimate disposition of these various claims and suits will have no material effect on the financial position of the Town.

The Midcoast Regional Redevelopment Authority (MRRA) filed a for a tax abatement on certain properties it believes are tax-exempt. The Town believes Maine law requires that those properties be taxed. Should MRRA prevail, the Town would be required to abate and refund taxes for the fiscal years ended June 30, 2013 and 2014 for \$114,114 and \$121,630, respectively. The Town has also taxed these properties for fiscal year 2014-15 and the amount that would be due with an abatement would be \$125,571.

C. Deferred Compensation Plan

The Town offers its non-school employees a deferred compensation plan (the "Plan"), created in accordance with Internal Revenue Code Section 457. The Plan, available to all non-school employees, permits the employees to defer a portion of their salary until future years. All assets and income of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

D. Defined Benefit Pension Plans

Consolidated Plan for Participating Local Districts: For its participating municipal employees and participating School Department employees not covered by the Teacher Plan (described below), the Town of Brunswick contributes to the Consolidated Plan for Participating Local Districts (CPPLD) a cost-sharing multiple-employer, defined benefit pension plan administered by the Maine Public Employees Retirement System (MainePERS). The MainePERS is established and administered under Maine law. The CPPLD provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to Plan members and beneficiaries. The authority to establish and amend benefit provisions rests with the State legislature. The MainePERS issues a publicly available financial report that includes financial statements and required supplementary information for the CPPLD. That report may be obtained by writing the Maine Public Employees Retirement System, 46 State House Station, Augusta, ME 04333-0046.

Plan members are required to contribute 6.5% to 8.0% of their annual covered salary and the Town of Brunswick is required to contribute at an actuarially determined rate. The rate for the year ended June 30, 2014 varied from 6.5% to 12.8% of covered payroll depending on the employee classification. The contribution requirements of the Plan members and the Town of Brunswick are established by and may be amended by the State Legislature. The amounts the Town was required to contribute to the CPPLD for the years ended June 30, 2014, 2013 and 2012 were \$796,662, \$683,783 and \$532,670, respectively, less amounts from credits as noted below. All required contributions were made by the Town.

The CPPLD retirement programs provide defined retirement benefits based on a member's average final compensation. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit or, in some cases, the earning of one year of service credit immediately preceding retirement at or after normal retirement age. Normal retirement age is 60. The monthly benefit of members eligible to retire before normal retirement age by virtue of having at least 25 years of service is reduced by a statutorily prescribed factor for each year of age that a member is below his/her normal retirement age at retirement. Police and fire personnel have special provisions that allow them to retire at any age, without a reduction in benefits, after 20 or 25 years of service depending on their individual date of hire.

The Town joined the CPPLD of the Maine Public Employees Retirement System, effective on July 1, 1995. Upon joining the CPPLD, the Town ceased to be an individual sponsor of an agent multiple-employer defined benefit pension plan administered by MainePERS and instead became a participant in the CPPLD. As a participant of the CPPLD plan, the Town is entitled to its initial unfunded unpooled

actuarial assets from its previous plan. At June 30, 2013, the latest information available, the remaining balance is \$231,731. The Town has used credits of \$66,024, \$68,280 and \$71,712 for the years ended June 30, 2014, 2013 and 2012, respectively, to reduce contributions to the CPPLD.

Teacher Plan: Teachers and certain other School Department employees also participate in the Maine Public Employees Retirement System (MainePERS) through the Teacher Plan, a cost-sharing multiple-employer, defined benefit pension plan with a special funding situation established by the Maine Legislature. The Plan's retirement programs provide defined retirement benefits based on a member's average final compensation. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit (effective October 1, 1999, the prior ten-year requirement was reduced by legislative action to five years) or, in some cases, the earning of one year of service credit immediately preceding retirement at or after normal retirement age. Normal retirement age is 60 or 62, determined by whether a member had at least 10 years of creditable service on June 30, 1993. The monthly benefit of members eligible to retire before normal retirement age by virtue of having at least 25 years of service is reduced by a statutorily prescribed factor for each year of age that a member is below his/her normal retirement age at retirement. The System also provides death and disability benefits. The authority to establish and amend benefit provisions rests with the State legislature. The MainePERS issues a publicly available financial report that includes financial statements and required supplementary information for the Teacher Plan. That report may be obtained by writing the Maine Public Employees Retirement System, 46 State House Station, Augusta, ME 04333-0046.

Employees in the Teacher Plan are required by State statute to contribute 6.5% of their compensation to the retirement system. Beginning with the fiscal year ended June 30, 2014, the Town is required to make contributions equivalent to the actuarially determined normal cost of the Plan for non-federally-funded teachers. Contributions paid by the Town for the year ended June 30, 2014, were \$415,000, at a rate of 2.65%, equal to the required contribution for the year. As required by State statute, contributions are made on behalf of the Town for the non-federally-funded teachers by a State appropriation. Contributions paid by the State to the Plan for the years ended June 30, 2014, 2013 and 2012 were \$2,038,000, \$2,135,000 and \$2,144,000, respectively, equal to the required contribution for each year. For federally-funded teachers, contributions paid by the Town to the Plan for the years ended June 30, 2014, 2013 and 2012 were \$61,368, \$64,533 and \$116,602, respectively, equal to the required contribution for each year. The actuarially determined rate for State and Town contributions to the Teacher Plan for retirement for the year ended June 30, 2014 were 13.03% and 16.15%, respectively.

E. Overlapping Debt

1. Cumberland County

The Town is subject to an annual assessment of its proportional share of Cumberland County expenses, including debt repayment. The Town's share is determined as the percentage of its equalized state valuation of the total equalized state valuation of all municipalities in the County. At June 30, 2014, the Town's equalized state valuation of \$2,026,250,000 was 5.25% of the County's equalized state valuation of \$38,619,800,000. The Town's share of Cumberland County's principal debt as of June 30, 2014 is \$2,010,783 or 5.25% of the total outstanding long-term County debt of \$38,325,000.

2. Maine Region 10 Technical High School

The Town of Brunswick is a participant along with the Regional School Unit 5 (RSU 5) and Regional School Unit 75 (RSU 75) in a joint venture to operate Maine Region 10 Technical High School (MR10). MR10 was established by a cooperative agreement pursuant to Maine law to deliver a program of vocational education to students of the member units. At June 30, 2014, MR10 had total principal debt outstanding of \$7,104. The Town of Brunswick's share of MR10's debt is 38.29%, or \$2,720. See the "Joint Venture" footnote for additional information.

F. Quasi-municipal Debt

Two districts, as quasi-municipal entities, provide certain services to their respective customers, most of whom are within the territorial boundaries of the Town of Brunswick. Although the indebtedness of these districts is not an obligation of the Town nor is it guaranteed by the Town, many of the ratepayers of the districts are also taxpayers of the Town.

The following disclosure as of June 30, 2014 is provided as an indication of the combined debt burden of the constituent ratepayer/taxpayer base.

	<u>Total Principal Debt</u>	<u>% Applicable to Brunswick</u>	<u>Amt Applicable to Brunswick</u>
Brunswick and Topsham Water District	\$ 8,585,560	66.67%	\$ 5,723,993
Brunswick Sewer District	1,463,231	100.00%	1,463,231
Total	<u><u>\$ 10,048,791</u></u>		<u><u>\$ 7,187,224</u></u>

G. Joint Venture

The Town of Brunswick is a participant along with Regional School Unit 5 (RSU 5) and Regional School Unit 75 (RSU 75) in a joint venture to operate Maine Region 10 Technical High School (MR10). MR10 was established by a cooperative agreement pursuant to Maine law to deliver a program of vocational education to students of the member units. MR10 is governed by a nine-member board of directors. The Town of Brunswick has four members, RSU 75 has three members, and RSU 5 has two members. However, the votes for each board member are weighted according to population determined by the most recent Federal Decennial Census. With the exception of direct federal and state revenues, balances, and other miscellaneous receipts, MR10 funds its operations, debt service requirements and other programs through an annual assessment to each of the member units. The assessments are also based on the population of the units as determined by the most recent Federal Decennial Census. Each member unit must also approve its assessment through its own budgetary process. The Town of Brunswick currently has an on-going financial responsibility to fund 38.29% of MR10's budget. For the year ended June 30, 2014, the total budget of MR10 was \$1,980,299. After MR10 deducted certain balances and miscellaneous revenues, the Town of Brunswick was assessed and paid \$708,809. At June 30, 2014, MR10 had total principal debt outstanding of \$7,104. The Town of Brunswick's share of MR10's debt is 38.29%, or \$2,720. A copy of MR10's audited financial statements may be obtained from Maine Region 10 Technical High School, 68 Church Road, Brunswick, Maine 04011.

H. Commitments

As of June 30, 2014, the Town had various contractual commitments, none of which are considered material.

I. Subsequent Events

On July 7, 2014, the Town Council adopted a bond ordinance authorizing the issuance of up to \$454,080 in debt to finance the acquisition and installation of heating, ventilation, cooling and related equipment at the Brunswick Junior High School. This is the fourth and final phase of an air quality project at the school, and was included in the 2015-2019 Capital Improvement Plan (CIP) adopted by the Town Council on May 29, 2014.

On September 2, 2014 the Town Council adopted a bond ordinance authorizing the issuance of up to \$580,000 to finance storm drain improvements and reconstruction of Nancy Drive, Patricia Road and Pierce Lane. This project was included in the 2015-2019 CIP and the work is anticipated to begin in the spring of 2015.

On September 2, 2014 the Town Council adopted a bond ordinance authorizing the issuance of \$146,000 to finance the acquisition of a sidewalk tractor and associated attachments.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted or committed to expenditure for particular purposes.

Special revenue funds are established for the following purposes:

Recreation Programs

To account for all user-supported recreation programs.

Town Restricted Programs

To account for grants and other programs where revenues are restricted for a specific purpose.

School Restricted Programs

To account for grants and other programs where revenues are restricted for a specific purpose related to educational expenditures.

CAPITAL PROJECTS FUNDS

Capital projects funds are used for the acquisition or construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital projects funds have been established for the following purposes:

Impact Fees

To account for a variety of capital improvements for which an impact fee has been levied to fund all or a portion of the improvement. The fees are collected through the Town's site development and subdivision review process.

Industrial Park

To account for funding of the construction of Brunswick's Industrial Park and related expansions.

Public Works Projects

To account for public works projects related to street resurfacing and sidewalk repair.

Vehicle/Equipment Reserves

To account for vehicle and capital equipment purchases.

Downtown Improvement Projects

To account for certain capital improvements in the downtown master development plan.

Capital Improvements Fund

To account for capital projects that are supported by appropriations and/or advances from the General Fund or donations from private or public sources.

Elementary School Building Fund

To account for a capital project which is funded by long-term debt obligations.

PERMANENT FUNDS

Permanent funds are used to account for resources where principal is legally restricted by a formal trust agreement and only earnings may be used for purposes that benefit the government or its citizenry.

Nonexpendable permanent funds:

Education Funds:

Brunswick School Fund

This fund was established to be used by the school department.

Brunswick High Class of 1920 Fund

This fund was established for the purpose of purchasing books for the Brunswick High School Library.

Community Improvements Fund:

Joshua Chamberlain Fund

This fund was established for the maintenance of the Joshua Chamberlain Statue.

Recreation and Cultural Fund:

Nathaniel Davis Recreation Fund

This fund was established to provide funds each year for the pleasure of the inhabitants of the Town of Brunswick as the government of Brunswick shall decide.

Social Services Fund:

George H. and Josephine Runnels Underprivileged Children's Fund

This fund was established for the benefit of underprivileged children of the Town of Brunswick.

PROPRIETARY FUNDS

Enterprise Funds:

These funds are used to report activities for which a fee is charged to external users for goods or services. In addition to its Solid Waste Facilities and Pay-per-bag major funds, the Town reports the following nonmajor enterprise funds:

Mere Point Wastewater

Operation of a wastewater district serving 35 households.

Train Station/Visitors Center

Operation of a downtown train station and visitors center.

FIDUCIARY FUNDS

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and which cannot be used to support the government's own programs.

Private-purpose Trust Funds:

These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments.

Scholarships and Education Funds:

Samuel G. Davis School Prize Fund

Provides one boy and one girl from each high school class and the highest class in each grammar school in Brunswick a prize for "kind good manners".

Solon E. and Lydia Skolfield Turner Scholarship Fund

Provides scholarships to assist worthy graduates or students of the Brunswick High School in pursuing advanced studies in approved secondary schools.

Pearl H. Baker Scholarship Fund

Provides scholarships to encourage and assist deserving and needy graduates of Brunswick High School to continue their education.

Lewis P. Gallagher Scholarship Fund

Provides scholarships to selected graduates of Brunswick High School to attend a vocational institution, college or university.

Doris C. Bibber Memorial Fund

Provides an award to a high school senior who has demonstrated outstanding ability and excellence in history class.

Elizabeth A. Nickerson Scholarship Fund

Provides a need-based scholarship to attend a four-year college or university to a graduating female student of Brunswick High School.

John Bibber Scholarship Fund

Provides a scholarship to a graduate of Brunswick High School or a resident of Brunswick who intends to pursue a degree in Public Administration.

Lester Rogers Memorial Fund

Provides a memorial award for eighth grade technology students.

Brunswick Junior High School Personal Growth Award Fund

Provides an award to recognize Junior High School students who have shown growth in the face of adversity over the course of the school year.

Public Library Funds: For the benefit of Curtis Memorial Library

L. Augusta Curtis Library Fund

W. J. Curtis Library Fund

Letitia A. Curtis Library Fund

E. H. Pennel Village Improvement Fund

For the use of the Village Improvement Association.

Alex Labbe Recreation Fund

Provides summer vacation camp scholarships for children participating in the Brunswick Parks and Recreation Department program.

Agency Funds:

The Student Activities Agency Fund is used to report resources held by the Town in a purely custodial capacity.

STATISTICAL SECTION

The following statistical tables are provided to give a historical perspective and to assist in assessing the current financial status of the Town of Brunswick. The tables do not provide full financial information for prior years and are provided for supplementary analysis purposes only.

<u>Contents</u>	<u>Tables</u>
Financial Trends	1-5
<i>These schedules contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time.</i>	
Revenue Capacity	6-11
<i>These schedules contain information to help the reader assess the Town's most significant local revenue source, the property tax.</i>	
Debt Capacity	12-14
<i>These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	15-16
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.</i>	
Operating Information	17-19
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.</i>

2013	9.72	14.30	0.88	24.90
2014	9.42	16.18	0.94	26.54

The Town annually adopts an annual budget for which property taxes are levied. The Education and County Tax are a part of the total property tax levy. The distribution shown above reflects the amount each component requires of the total tax levy.

(a) The Town is a member of the Maine Region 10 Technical High School (MR10). MR10 does not have taxing authority. However MR10 does assess the Town for participation in the Region. That assessment becomes part of the Town's education budget. The amount of the direct tax rate attributable to education expenditures is shown above.

(b) Cumberland County assesses a county tax to the Town of Brunswick. The Town includes the county assessment in the Town's total direct tax rate. The rate shown here reflects the portion of the Town's total direct tax rate levied by the Town to pay the county tax assessment.

(a) Presented net of original issuance discounts and premiums.

(b) General Bonded Debt includes debt issued as General Obligation Tax Increment Financing Bonds. Although the debt has been issued as general obligations, it is anticipated that it will be fully paid from Tax Increment Financing (TIF) revenues.

(c) Amounts available in the Debt Service Fund are restricted by the TIF program established with the State of Maine.

(d) Beginning in 2005, the Town's solid waste facilities are accounted for in an enterprise fund. While the enterprise fund is expected to fund this debt, the obligation remains general obligations of the Town.

(e) Per capita income and population can be found in Table 16.

(f) For taxable property value data see Table 8.

TOWN OF BRUNSWICK, MAINE
Direct and Overlapping Governmental Activities Debt
June 30, 2014

<u>Jurisdiction</u>	<u>Debt Outstanding</u>	<u>Percentage Applicable to Government</u>	<u>Amount Applicable to Government</u>
Direct:			
Town of Brunswick General Obligation	\$ 27,322,912	100.00%	\$ 27,322,912
Premium on bonds	<u>179,782</u>	100.00%	<u>179,782</u>
Total direct debt	27,502,694		27,502,694
Overlapping:			
Cumberland County	38,325,000	5.25%	2,010,783
Maine Region 10 Technical High School	<u>7,104</u>	38.29%	<u>2,720</u>
Total overlapping debt	38,332,104		2,013,503
Total direct and overlapping debt	<u>\$ 65,834,798</u>		<u>\$ 29,516,197</u>

Note: Annually, Cumberland County assesses each municipality its proportionate share of the County tax required to fund the County budget. The County tax assessment applicable to the Town of Brunswick is included in the total property tax levy of the Town of Brunswick.

Sources: The outstanding debt for Cumberland County has been provided by the County. The percentage applicable to the Town of Brunswick is based on the ratio of the State equalized assessed valuation for the Town of Brunswick versus the equalized state valuation for Cumberland County in total.

The outstanding debt for Maine Region 10 Technical High School has been provided by MR10. The percentage applicable to the Town of Brunswick is based on the cooperative agreement that established MR10. That agreement specifies that the percentage each participant is required to contribute is based on the population as determined by the most recent Federal Decennial Census.

TOWN OF BRUNSWICK, MAINE
Legal Debt Margin Information
June 30, 2014

Debt Limit by Category

The amount of debt a Maine municipality may have is governed by Title 30-A M.R.S.A. section 5702. The law limits total debt and debt for specific categories. Total debt cannot exceed 15% of the Town's last full State Valuation. Debt for specific categories is limited to a percentage of State valuation. As the following table indicates, based on a 2014 State Valuation of \$2,026,250,000, the Town is in compliance with the total and categorical debt limits:

<u>Type of Debt</u>	<u>Maximum Percent Allowable</u>	<u>Maximum Allowable Amount</u>	<u>Principal Amount Outstanding</u>	<u>Legal Debt Margin</u>
School	10.00%	\$ 202,625,000	\$ 18,242,912	\$ 184,382,088
Storm or Sanitary Sewer	7.50%	151,968,750	-	151,968,750
Municipal Airport Special District	3.00%	60,787,500	-	60,787,500
Municipal	7.50%	151,968,750	<u>9,080,000</u>	142,888,750
Total Maximum Debt	15.00%	\$ 303,937,500	<u>\$ 27,322,912</u>	\$ 276,614,588

Legal Debt Margin Calculation for Fiscal Year 2014

State Valuation	\$ 2,026,250,000
Debt Limit - 15% of State Valuation	303,937,500
Less outstanding debt applicable to debt limit	<u>(27,322,912)</u>
Legal Debt Margin	<u>\$ 276,614,588</u>
