

Who Made This Park Possible?

The campaign to establish a dog park in Brunswick was led by Brunswick Area Recreation for Kanines (BARK). Founded in 2010, BARK created a public/private partnership with People Plus and the Brunswick Parks & Recreation Department to design and build a beautiful, safe, fenced recreation area for our dogs. BARK raised more than \$50,000 to build the park. The land was provided by the Town of Brunswick and is managed by the Brunswick Parks & Recreation Department as part of its daily maintenance of the Androscoggin River Bicycle and Pedestrian Path.

BARK was assisted by numerous community members and businesses who provided monetary or in-kind donations and discounts, designed publications and t-shirts; provided moral support, critical thinking, and inspiration.

We thank People Plus, the Brunswick Recreation Commission, the Town of Brunswick, and all of our donors and supporters for making the dog park possible.

Special acknowledgment and thanks goes to artist Jim Williams of Mainely Labs Studio for allowing us to use his wonderful art “Lab Dance” for our logo and to landscape architect Anthony Muench for his artful renderings of the dog park.

We are especially grateful to the Friends of Belfast Parks who were our guiding lights throughout the process and who generously allowed us to use their User Guide as the template for this document.

Please show your appreciation to the businesses and organizations that made monetary or in-kind contributions to this project. As the first edition of this guide is completed, they include, in alphabetical order:

- Almost Home Rescue – New England
- Androscoggin Animal Hospital
- Atlantic Regional Federal Credit Union
