Can you fend off polar bears and brave blizzards in Arctic Ice Cap? Can you lead a research mission in the mobile laboratory to learn the secrets of the mysterious ice crystals? Are you up to the challenge? If so, we want you! Join us as we set up our base camp and laboratory in the Arctic to learn about the people, plants and animals which can survive in this frigid territory. Camp participants will stay focused with educational stories, Lego builds, games and challenges which promote collaboration, critical thinking and fun! Daily sessions always include time for creative free-building, too. Campers should bring lunch, morning/afternoon snack and sunscreen every day.
